

LEG 15

5.5 miles - More Challenging

This leg drops into the south end of Lake Tahoe

- Proceed up and then down along this very windy stretch of the highway, running WITH traffic as close to the edge of the road as possible and running CAUTIOUSLY
- At the end of this leg when you reach the exchange point, then crossover State Route 89 to the exchange. Be careful crossing here at the end of the leg.

VANS: Turn into the driveway and park in the lot for Taylor Creek Visitor Center. DO NOT PARK along Hwy. 89. Also DO NOT PARK along the inbound lane of the driveway because this blocks the driveway.
