

# LEG 30

3.5 miles - Most Difficult

Leg 30 Elevation Profile

Map by Sam Limerick  
shlimerick@charter.net

This leg passes through Gold Hill and reaches Virginia City

- Continue along State Route 342 through Gold Hill, now running WITH traffic
- Proceed on State Route 341 into Virginia City and down the main street, called C Street, running WITH traffic and BEING ALERT for moving vehicles
- Stop at the exchange point just short of the Bucket of Blood Saloon, across from the Delta Saloon

Vans: Upon arriving in Virginia City, you will be on Nevada State Route 341 aka C Street, the main road through town. We close this street near the exchange, so before the closure turn right on Taylor, then left on E Street and park in the parking lots along E Street just beyond Union. The exchange is a short walk 2 blocks up the hill from there. To avoid a traffic jam at Taylor, turn right at the SR 341-342 Junction just as you enter town. Take the first left onto D Street, head due north for a few blocks, turn right on Taylor, then left on E and proceed to the parking lots beyond Union.
