Hello Runners,

Welcome to the 17th running of the Reno-Tahoe Odyssey Relay Run Adventure, the 10th Capital Odyssey Relay and the 8th Comstock Odyssey Relay!

Aimee and I are honored to be the new owners of Race178 and the RTO! You can expect the same great event that Eric and his team put on for 16 years (2005-2019, 2022). This is a spectacular, one-of-a-kind course, including many snowcapped mountains, beautiful Lake Tahoe and historic Virginia City. We have fun contests for the most spirited teams and exchange points, plus the Leg 4 Time Trial where we will crown the fastest man and fastest woman, and 178th place will score a great prize too. This is an amazing event, but it can be hard at times. Smile, cheer on fellow runners then celebrate your achievement at the Idlewild Park Finish Line Festival. Each runner (21 and up) receives a complimentary beer from our official beer partner Revision Brewing, plus some amazing vendors and food options. Team captains get a complimentary lunch and a captain's pilsner glass too.

Will any of you be joining the Circle of Fame? Please let us know so we can have your swag ready for you. If you have run 5 RTOs or 10 RTO's or 15 RTO's, we will be giving you special patches.

Your safety and the safety of everyone else out there is critical, so we need you to follow the rules. Especially along CA State Route 89 (Legs 9 through 16). Please follow the leg instructions and cross the highway only where we direct you to cross.

Once again there will be a lot of runners and vans, so be alert and patient. Please check in with the volunteers at each exchange point so we can keep track of your team.

Get familiar with the legs you are running. This event is so much more fun when you are not lost.

No one leave XP 18 before Friday 10:30 pm and XP 24 before Saturday 2:30 am. To avoid being held up let's adjust your start times if necessary.

If it is REALLY hot on Saturday, we will have a procedure to deal with starting teams' second vans a little early in Virginia City.

Thank you for joining us this year. Thank every volunteer. Respect the locals. Be safe. Have fun.

Best regards,

Matt Balzer

President, Race178
Race Director

matt@race178.com

Safety

The safety of every runner is our first concern, so we address safety before anything else.

Emergencies

If you have a medical emergency, please call REMSA at (800) 648-4888 and ask for the Communications Supervisor. This is one step better than calling 911. You may call 911 also but after you have called the number above. Once you have things under control, please contact Matt Balzer at 775-771-1369

Volunteers at every exchange point will be ready to address a medical emergency and contact REMSA too.

There are hospitals with emergency facilities along the course. They are:

Renown Medical Center (775) 982-4100, 1155 Mill St., Reno

Tahoe Forest Hospital (530) 587-6011, 10121 Pine Ave, Truckee

Barton Hospital (530) 541-3420, 2170 South Avenue, South Lake Tahoe

Carson Tahoe Medical Center (775) 445-8000, 1600 Medical Parkway, Carson City

Renown Medical Center South Meadows (775) 982-7000, 10101 Double R Blvd., South Reno

Odyssey Safety Manifesto

Nothing could be more serious than your safety. It's so important that we have created this separate Odyssey Safety Manifesto to further address safety issues. We do not mean to scare you here, but we do want to get your attention so that you recognize that you need to be careful as you participate in this type of event.

1. The course—We are proud of this course that takes you on a terrific tour of the Reno-Tahoe region. Along the way you will see many of the attractions this area has to offer. In laying out the course, I asked the questions: Would I like to run here? Would I be willing to run here?

There are certain portions of the course where we travel on a highway and where there is not much room on the shoulders for runners to be off the roadway. They are the only way to get from point A to point B with van support. When we use those roads, the traffic is typically light, especially during the night hours.

Nevertheless, you need to be alert at all times. Not just the runners, but everyone else associated with the team. The others riding along in the vehicle and the driver too. Exercise extreme caution at all times. Be ready to stop running and step off the course if you hear a big truck coming or a lot of other traffic. Stopping for a few moments to make sure you are in a safe spot is the right thing to do.

2. We request that each of you be mindful of overall safety. Please be careful while running and traveling the course. The roads and paths used for the relay course are NOT closed for the event. Every runner, team driver and team member need to be alert and exercise caution. Every runner, team driver and team member must comply with all traffic laws. Runners must follow the directions provided with each leg. Runners must run outside the white lines on the shoulders of the roads. Runners must cross certain roads at designated intersections and comply with the traffic signals.

This is a long-distance relay run that will take most teams more than 24 hours to complete. It does not make sense to dash across a busy road and put yourself in a dangerous situation to save a minute or two on your total team time.

Team vehicles – Team vehicles should act as an additional safeguard for runners. They can do that in at least two ways. One is to display the “Runners on Road” sign that we provide to you. Place the sign on the back of the vehicle in a conspicuous location. We will provide each team with two signs, one for each vehicle. If you

have extra ones, use them. In addition, team vehicles can help manage the speed of the traffic and slow down faster drivers by driving in compliance with the posted speed limits.

For almost the entire course the team vehicle should be close by. The team vehicle should keep the runner in sight if possible. The team vehicle can be an extra direction sign waiting at or near the turns in the course.

Team vehicles should not cause traffic and safety issues. Team vehicles may not drive next to runners for long periods of time, as this may cause a traffic hazard. Team vehicles must park safely off of the roadways and not block access to other roads or driveways. Team vehicles should not speed along the course endangering other teams' runners. Please drive at safe speeds at all times. Do not place any signs or decorations on the vehicle that block your views out of windows of the vehicle.

3. Night running -- From dusk till dawn runners are required to wear a lighted vest or a reflective vest with a blinking light, and carry a lighted flashlight or wear a headlamp. As a precautionary matter, we encourage runners to wear reflective vests at all times. We strongly urge you to stay in your van between sunset and sunrise unless you are running or safely within the confines of a transition area. Should you determine it is absolutely necessary to be outside your van at night, you must be wearing a reflective vest and you must have a light attached to you or in your hand. Everyone needs to be alert. Traffic may expect runners along the road, but they will not expect anyone darting across the road to support or cheer on a runner. Everyone, not just the runner, must be careful at all times.

For many runners this is their favorite run of their 3 legs, and this is their favorite time of the relay. It can be such a great experience. Enjoy the moment but be alert.

4. Drinking and driving—This is a serious issue. The laws that prohibit motorists from drinking and driving obviously apply to our participants too.

5. Running Partner – At any part of the relay a runner may be accompanied by another runner. But please no bike escorts except on Leg 4 or on bike paths. On certain roads a bike escort creates a traffic and safety hazard.

6. Runners CANNOT use headphones on Legs 8 through 32.

7. Permits, law enforcement, signs, a system for emergencies, and lots of volunteers — We take many, many steps to make this event a safe experience. Those steps include the following:

Every single mile of our course is permitted by appropriate authorities. It's more important that everyone finish safely than anything else. A permitted race is one that has been "vetted" by local authorities. We don't consider that a hassle. We consider it a necessity.

We work closely with the law enforcement authorities. We contract with them to patrol certain parts of the course and help with traffic controls services. We pay them to do it. We're happy to have them involved in the event.

In addition, we put up changeable message boards and "Special Event Ahead" signs along the course in strategic locations to let drivers know that you are out there. We also will place some light plants at certain exchange points.

8. The Check in and Team Captains Meeting— We prefer that each team check in the night before. When you do, you must demonstrate that you have the proper reflective and lighting equipment. Then, you are required to have at least one team member attend the team captain's meeting. At that time, we will tell you about any last-minute course issues or event issues. This is not a meeting that can be lightly blown off.

We want to hold this event every year. In order to do so, we need your cooperation regarding these safety issues. Thank you for your consideration.

Please pay particular attention to the following issues on the route used for the Reno-Tahoe Odyssey, Capital Odyssey and Comstock Odyssey.

Caution: parking along Legs 1 through 3 in west Reno and Verdi

Team vans need to exercise caution when parking. Do not block driveways or bike lanes.

Caution: Crossing railroad tracks on Legs 2, 6 and 7

Please be careful crossing the tracks on Woodland Avenue. The trains may be going as fast as 45 mph.

Here are some important facts that you should be aware of:

1. You cannot judge the distance and speed of an oncoming train.
2. A train can approach any track, from either direction at any time. On multiple tracks, more than one train can be present at one time.
3. You cannot always hear a train coming.

When the crossing gates go down and the lights and bells start up, DO NOT CROSS THE TRACKS!! Rather, wait patiently for the train, and enjoy the brief rest stop. This is a 24 hour relay on a 178 mile course on roads open to traffic and other elements. There are going to be moments when your team is not advancing along the course due to some circumstance outside your control. A train at a crossing is one of these circumstances. Be smart and safe.

CA State Route 89 From Truckee To South Lake Tahoe — Legs 9 through 16

Probably the most challenging road on the course is Highway 89 from Truckee to South Lake Tahoe. Legs 9 through 17 travel along this highway. We want you to be particularly careful along this stretch.

Runners should do the following:

- Runners must wear their reflective vests even if they are running along this highway during the day time.
- Run off the roadway on the shoulder whenever you can. Run outside of the white line that separates the main roadway from the shoulder. NEVER run on the white line. NEVER run inside the white line in the traffic lane.
- On Legs 11, 12, 13 and 16, we encourage you to run on the bike path that is next to the roadway.
- **Leg 15 IS A BIG CHANGE!** It is the narrowest leg on the course and there are very limited places for the van to stop. Runners need to be alert and should expect to run this Leg without any van support. This year runners will cross the road at the BEGINNING of Leg 15. Run AGAINST traffic on the left side of the road. **YOU WILL NOT CROSS THE HIGHWAY AT THE END of the leg. Be careful running this leg and crossing at the start of the leg.**

Van drivers should do the following:

- Be certain you can see out all of the windows of the vehicle. DO NOT block your view outside the windows of the vehicles by putting up decorations or signs on those windows.
- Only stop along the roadway where there is plenty of room and where the traffic can clearly see your vehicle exiting and entering the road.
- Do NOT stop suddenly. DO NOT get back into traffic suddenly.
- Between Truckee and Squaw Valley (Legs 9-10), DO NOT pull over that frequently. Only pull over where you can fit your van off the road in the dirt far away from the white line separating the traffic lane.

- Between Homewood and South Lake Tahoe (Legs 13-16), please mind the speed limit, especially when you are driving by our runners! The road is narrow, please exercise extra caution driving along this stretch and passing your fellow runners.
- Leg 15 is the narrowest leg on the course and there are very limited places for the van to stop. Van drivers need to be alert and expect to drive this leg really, really slow. You may not have any opportunity to offer your runner support. So don't expect to do so. Just drive to the next exchange. Your runner cannot get lost.
- Do not park facing the wrong way. Southbound traffic should not park facing northbound direction, and northbound traffic should not park facing southbound. And definitely do not do that with your headlights on making it difficult for oncoming traffic to see.
- CHP will give tickets to RTO van drivers who do not follow these rules.

No one should wave any large flags or banners. That can distract the other motorists.

A note about the paved pathways on Legs 12, 13 and 16 – Be alert:

The bike paths along these legs are parallel for the most part to Hwy 89. At certain locations, however, these paths turn away from the road and twist through the trees. This may be a little spooky for you, especially in the night. There are wild animals about. We have had bear sightings. Usually grazing in dumpsters. When running into the woods, we suggest making some noise. Or run with a partner. Or just stay on the shoulder of the roadway at those points.

Caution: Parking At Van Exchange Points (Nos. 6, 12, 18, 24 and 30)

The van exchange points are always the most crowded exchanges. Please be careful entering and exiting them. Watch out for runners and other team vehicles and other motorists.

Exchange No. 6 is at the Tahoe Forest Church, 10315 Hirschdale Road in Truckee. Parking will be inside the church property. Please park in the designated spots and follow the directions given by our parking attendants. There will be one way traffic on the church property, so follow the one road to the exit. DO NOT EXIT WHERE YOU ENTERED. DO NOT DRIVE THE WRONG WAY ON THE CHURCH PROPERTY. AND DO NOT PARK AT THE HIRSCHDALE ROAD - GLENSHIRE ROAD INTERSECTION.

Exchange No. 12 is in Homewood, CA on Lake Tahoe's spectacular west shore. We will have the large south lot at Homewood Mountain Resort for our use. Enter and exit the lot from Fawn Lane. Fawn Lane is the first right immediately past Homewood Mountain Resort. We will not use the front entrance. In addition, there is street parking across the road from Homewood Mountain Resort. If you park on that side of the highway, please be careful crossing the road to get to the exchange.

At **Exchange No. 18** at South Lake Tahoe's Village Center, there is a very large parking lot with plenty of parking spaces. The front entrance will be closed. Vans will need to enter and exit using the street on the east side of the parking lot just past the Starbucks. Turn right onto that street, then right into the parking lot.

At **Exchange No. 24** at the Super Walmart store just south of Carson City, there is another very large parking lot with plenty of parking spaces. There are two entrances to the parking lot off of Topsy Drive. We'd prefer that you use the first one as compared to the second one right by the Walmart sign and the exchange. We'd prefer that you exit there also.

Exchange No. 30 is in the heart of historic Virginia City. We are closing the main street (C St.) for the block where the exchange is located. When you reach Virginia City, find your way to E Street 2 blocks east of C Street and park by the museum at the corner of E Street and Union. It is a short two block walk up the hill to the exchange across from the Delta Saloon and next door to the Bucket of Blood Saloon.

Caution: Parking for Exchange 9 off Highway 89 between Truckee and Squaw Valley

Exchange No. 9 is in a large dirt area adjacent to Highway 89. We will direct vans to veer off the highway and park just short of the exchange in the dirt area. Be careful leaving and re-entering the highway here. Quickly get out of, then back into, the traffic lane.

Specific Parking Rules at Exchanges 2, 3, 7, 10, 13, 15, 16, 17, 21, 29 and 32

For 2, 21 and 32, please park on the side of the road where the exchange is. DO NOT park across from road from the exchange area.

For 3, do not park in the lane where parents are parked to pick up their kids at Verdi Elementary. Do not park in or block the driveways across the street from the school.

For 7, please park along the north side of the dirt Prosser Dam Road just east of the exchange. You will need to make a U-turn on the dirt road. Your van should be facing westbound.

For 10, please park in the Squaw Valley Park parking lot. DO NOT park across the street from the park.

For 13, please turn right on and drive up the hill and park on one of the side streets or turn around and park headed down the hill on Silvertip Drive. DO NOT park on the right side of Silvertip going up the hill, because that will block traffic coming in and out of this exchange. Also DO NOT park along CA State Route 89.

For 15, please pull into the long driveway of Taylor Creek Visitor Center and park in the nearby parking lot. DO NOT park on the right side of the driveway, because that will block traffic coming in and out of this exchange. Also DO NOT park across the highway from the exchange.

For 16 this is a rolling exchange so please park out of the way of traffic, ideally facing westbound but not in the parking lot of the commercial center. Runners can exchange anywhere on Venice Drive between 15th and Tahoe Keys Blvd. We prefer you exchange closer to Tahoe Keys Blvd.

For 29, please park parallel in the chain installation area on the right. If that area is full, please park continue past the exchange and park along the road above the exchange and walk back to the exchange.

Team Vehicles

Due to a number of runner exchanges being relatively small, we limit the size of the team vehicles to 20 feet long. No big, long or wide RVs, no limousines, etc. Please follow this key rule. It makes for a much better scene at those smaller exchanges.

One caveat to this rule is that your team may park a larger RV at Exchange Point Nos. 24 and 30 to use for your team's mobile lodging. There are big lots at those locations where there is more room. The location of Exchange Point No. 30 in Virginia City is on E Street between the V&T Museum and the Silverland Hotel. BUT PLEASE DO NOT have those big RVs follow you along any part of the course in California. In the Boca area and along CA State Route 89 we do not want those big vehicles tying up traffic on those smaller roads.

Cautionary points about Leg 9 and Leg 15

Leg 9: At the intersection at CA State Route 89 and West River Street in Truckee, the runner MUST obey the traffic signals and cross Hwy. 89 on a green light, then start to run south on Hwy. 89 on the southbound side of the road. This is the one and only place to cross Hwy. 89 and get to the southbound side of the road.

Leg 15 IS A BIG CHANGE! It is the narrowest leg on the course and there are very limited places for the van to stop. Runners need to be alert and should expect to run this Leg without any van support. This year runners will cross the road at the BEGINNING of Leg 15. Run AGAINST traffic on the left side of the road. YOU WILL NOT CROSS THE HIGHWAY AT THE END of the leg. Be careful running this leg and crossing at the start of the leg.

Runners who use headphones

Runners CANNOT use headphones on Legs 8 through 32. So if you “need” to listen to music when you run, please come up with an alternative where your ears are free to hear other things too, such as bears and other wildlife chasing you, traffic honking at you to get off the roadway, and stupid people doing stupid stuff to distract you and stop you from running.

Runners in the Night Time Hours (Dusk till Dawn)

Runners may take whatever precautions they want to feel safe when running at night. Have your van monitor your progress on a regular basis. DO NOT have your van drive to the end of the leg and wait for you there. Someone else may accompany you while you run. Carry whatever you like for protection. But no bike escorts. You must wear or carry a white light on your front side and attach at least one blinking light on your back, but you want to impersonate a Christmas tree with a number of blinking lights on your back. The more, the better. And a reflective vest with a wide reflective stripe. Don't skimp here!

What Happens If It Is Really Hot on Saturday?

If history repeats itself and we have record high temperatures on Saturday, we will let some teams start their second van on Leg 31 before their first van finishes Leg 30. This is for your health and safety.

Teams will need to contact Matt Balzer to get permission so that we know where your team is and IS NOT running.

To help manage the situation, we'll need the team captain to text Matt at 775-771-1369. We'll need you to provide the following info: (1) Team captain's name and cell phone number; (2) Team No.; (3) anticipated time of day that your Van 1 will finish Leg 30; (4) estimated amount of time that your Van 2 will need to finish the final 6 legs. Once that information is provided, Matt will let you know if your team may start its Van 2 on Leg 31 before its Van 1 reaches the end of Leg 30.

We also may direct your team to skip some legs.

Please cooperate with us and communicate with Matt. We need to know what is happening with your team, and we will let the exchange point volunteers know that your team won't be passing by a certain exchange.

Caution: Be Ready to Support Your Runners on Legs 34, 35 and 36

Even if it is not that hot, your runners on these legs will be tired and may get overly warm in the sun on Saturday. Vans should be ready to give the runners plenty of water along these legs. Don't leave them too long without support. And be ready to help other teams' runners who may need some water.

Caution: Crossing large intersections with traffic lights on Legs 35 and 36

There are a few large intersections where you need to be particularly careful. South Virginia Street on Leg 35. On Leg 36, there is McCarran Blvd., Moana Lane, Plumb Lane, and California Avenue. Be patient waiting for the lights including the lights for the left turn lanes. Don't dash across and put yourself in harm's way. Not worth it. And of course, do not take over the intersection stopping traffic so that your runner can run free without having to stop. That happened one year in south Reno at a major intersection. This is not how we roll during the event, and it is really stupid and dangerous!

Heat Stroke

Below is some helpful information about heat stroke.

What is heat stroke?

Heat stroke is the most severe form of heat illness and is a life-threatening emergency. It is the result of long, extreme exposure to the sun, in which a person does not sweat enough to lower body temperature. The elderly, infants, persons who work outdoors and those on certain types of medications are most susceptible to heat stroke. It is a condition that develops rapidly and requires immediate medical treatment.

What are the symptoms of heat stroke?

The following are the most common symptoms of heat stroke, although each individual may experience symptoms differently. Symptoms may include:

- headache
- dizziness
- disorientation, agitation or confusion
- sluggishness or fatigue
- seizure
- hot, dry skin that is flushed but not sweaty
- a high body temperature
- loss of consciousness
- rapid heart beat
- hallucinations

How is heat stroke treated?

It is important for the person to be treated immediately as heat stroke can cause permanent damage or death. There are some immediate first aid measures you can take while waiting for help to arrive.

- Get the person indoors.
- Remove clothing and gently apply cool water to the skin followed by fanning to stimulate sweating.
- Apply ice packs to the groin and armpits.
- Have the person lie down in a cool area with their feet slightly elevated

How can heat stroke be prevented?

There are precautions that can help protect you against the adverse effects of heat stroke. These include:

- Drink plenty of fluids during outdoor activities, especially on hot days. Water and sports drinks are the drinks of choice; avoid tea, coffee, soda and alcohol as these can lead to dehydration.
- Wear lightweight, tightly woven, loose-fitting clothing in light colors.
- Schedule vigorous activity and sports for cooler times of the day.
- Protect yourself from the sun by wearing a hat, sunglasses and using an umbrella.

- Increase time spent outdoors gradually to get your body used to the heat.
- During outdoor activities, take frequent drink breaks and mist yourself with a spray bottle to avoid becoming overheated.
- Try to spend as much time indoors as possible on very hot and humid days.

In summary, every runner needs to be properly hydrated for their legs. Please err on the side of carrying water with you or having your teammates provide you with water during your leg.

Caution: Leg 4

Leg 4 is the toughest leg on the course due to the extensive and long climb. Many of you will be running it in the heat of the afternoon, making it even more of a challenge. Don't get carried away with the time trial. Your health and safety are more important than running a fast time. Take care of yourself before you start and during this leg.

Your van CANNOT accompany the runner. THEREFORE, the Leg 4 runner MUST carry one or more water bottles. We will have an aid station at the four-mile mark and we will be able to top off your water bottles there.

Caution: Leg 7

Leg 7 is the second longest leg. And it will be Friday afternoon that most run it. It is mostly on dirt roads, from Boca Reservoir to the exchange point by Prosser Reservoir.

Your van CANNOT accompany the runner. THEREFORE, the Leg 7 runner MUST carry one or more water bottles. We will have an aid station at about the four-mile mark and we will be able to top off your water bottles there.

Caution: Leg 33

The first 4 miles of Leg 33 are on a dirt road down the canyon before reaching the paved part of Toll Road. There are sections that are steep and rocky and uneven. So the Leg 33 runner should be good at running downhill on uneven, rocky roads. With little sleep. Please run VERY, VERY, VERY SLOWLY down the canyon.

Your van CANNOT accompany the runner down the canyon on the dirt road. THEREFORE, the Leg 33 runner MUST carry one or more water bottles. We will have a first aid station at the bottom of the canyon. So if you fall and bang yourself up, please get down the canyon for help. Your van can meet you there. See the Leg 33 map for directions.

Now the good news about Legs 4, 7 and 33:

These legs are three of the prettiest legs on the course. You will be blown away by the vistas of the surrounding mountains and valleys. And on Leg 33 don't be surprised to see wild mustangs grazing along the route. So if you have the skills and if you have a sense of adventure and like to enjoy great views as you run, then be sure to run one of these legs.

Quiet Zones and Other Good Neighbor Practices

The course passes through some residential neighborhoods, including some during the night time when people are trying to sleep. **Please be quiet. Do not honk your car horn or any other horns. Do not ring your cowbells or any other bells. Do not speed in your vans.**

Where? In the following areas in particular but as a general rule wherever there are homes:

- Leg 8 on Prosser Dam Road, one of Truckee's most established neighborhoods
- Leg 16 through Tahoe Keys

- Exchange Point No. 19 at Daggett Summit at the top of Kingsbury Grade
- Exchange Point No. 21 at the bottom of Kingsbury Grade
- Exchange Point No. 22 in the cute little town of Genoa, Nevada's oldest settlement
- Leg 25 through south Carson City
- Leg 26 through the middle of Carson City

Keep the roads clear at Exchange Point Nos. 31 and 32. These are the only roads for residents to use to access their Virginia Highlands neighborhood. They need to use these roads during our event. So please keep out of their way.

Follow traffic signals at all intersections and be polite toward other motorists. Never stop traffic so that your runner can run through an intersection without having to mind the traffic and pedestrian laws.

And please use the portable toilets at each exchange point. Do not pee in anyone's yard!

Splitting a leg between two or more runners

Each runner should run his or her entire leg. A runner may stop and let another runner run the rest of the leg only if the runner believes he or she is about to suffer injury. We do not want anyone to get hurt. However, we also do not want teams to exchange wherever they want to do so. This creates various safety hazards. And it is not how teams are supposed to run this event.

Disqualification

If anyone on your team violates any of these rules, your team may be disqualified. No one wants to be onerous or difficult, but safety is very important. We want everyone to have a good and SAFE time.

Final point about complying with the rules and being good citizens.

PLEASE PLEASE PLEASE follow the event rules and the traffic laws. Please be reasonable and responsible as you travel the course. Please pick up your garbage and put it in trash cans. There are many people who enjoy doing this event. We want to be able to put on the RTO every year for many years to come. Thank you in advance for your consideration and your cooperation.

Checklist of The Most Critical Rules:

Legs 1 thru 3 in west Reno & Verdi: Team vehicles should not park so they are blocking driveways or bike lanes.

Team Vehicle Size Restrictions: No team vehicles over 20 feet long for your team support vehicles. That means no RVS.

Railroad Track Crossings on Legs 2, 6 and 7: Please be alert looking for trains. If one is approaching, please slow down and be prepared to stop for the brief time that it takes for the train to pass. Do not dart in front of a train. Not worth the risk!

Exchange No. 6: Please park inside the church property. Do not park along Hirschdale or Glenshire Roads. Follow the one way traffic pattern through the church property to exit out the other side. Do not exit the way you entered.

Leg 9: cross CA State Route 89 using the crosswalk at the intersection with West River Street.

Legs 9, 10, 12, 13, 14, 15 and 16 on CA State Route 89: runners must wear a reflective vest even if it is day time. This is the busiest road on the course and runner safety is very important.

From sunset to sunrise (approx.. 7 pm to 7 am): runners must carry or display a white light on their front side and at least one blinking red light on their back in addition to a reflective vest. And anyone else from the team who gets out of the van must wear a vest and lights too.

CA State Route 89: Do not park along the highway facing the wrong way. And do not park the wrong way with your head lights turned on into the oncoming traffic.

Legs 8 through 32: Runners cannot use headphones.

Entire course: Vans must park in the designated areas at the exchange points, especially at Exchange Nos. 2, 6, 9, 10, 13, 15, 21, 29 and 32.

Entire course: When stopping to support your runner, vans must park legally and completely off the roadway, especially on Legs 9, 10, 12, 13, 14, 15 and 16 on CA State Route 89. If there is not room to get your entire vehicle off the road, then DO NOT STOP there!

Entire course: Respect everyone's property. Go to the bathroom in public restroom facilities or in the portable toilets we put at the exchange points. Do not litter.

Entire course: Be quiet in the quiet zones. Prosser Dam Road on Leg 8 and the town of Genoa at the end of Leg 22 and beginning of Leg 23 are two of those zones. Do not make noise there. Do not speed in your vehicles.

NOTE: If anyone associated with your team violates these rules, your team may be disqualified. We are not trying to be hard asses. We just want for this event to happen year after year, that we get our permits and approvals every year, and that we do not create problems for the property owners along the course and the other motorists using the roads. And of course we want to see ALL of you with your smiling faces and tired legs at the Finish Line Festival! Thank you for your cooperation.

Check in Process:

Date: Thursday June 1

Time: 4:15 to 7:30 p.m.

NEW location: the parking lot on the southeast corner of Arlington Ave. and 4th St. across from the J Resort at 345 N. Arlington Ave. in downtown Reno.

When your team checks in, there will be multiple stations for you to pass through. Just one person can check in the team. Every team member does NOT have to be present but we will have RTO merchandise for sale so some might want to stop by.

First Station:

You provide us with the following:

- 1) Confirm your team name and number, your start time and your division.
- 2) Fully signed release / authorization forms for any runners who were added after May 10. A paper release must be signed and provided to us. The form is in this handbook.
- 3) Confirm the cell numbers of at least 1 runner in each van if you provided it online or provide us with a list. This will speed up the process and not require you to have to write in that info on a phone list on-site.
- 4) Show us your safety equipment. At least 2 reflective vests and 2 flashlights or head lamps and 2 blinking lights. But please have a lot more. Plan to decorate yourself in flashing lights so you look like a human Christmas tree.

Second Station:

We provide you with the following:

- 1) Your team's race numbers and pins.
- 2) Your team's baton which is one slap bracelet — you are not DQ'ed if you lose it :) .
- 3) Team Time Log form. Yes, we know this can be done electronically, but having a piece of paper and your watch on a clipboard is a tradition we think is worth keeping. There is nothing like the stress of making sure that damm watch is NOT turned off during the entire event. All teams will need to turn this in at the finish, especially teams competing for a division or overall finish.
- 4) One ballot for each van to complete for most spirited team and most spirited exchange point. These will be turned in at the finish when you pick up your medals.
- 5) Two "Caution: Runner On Road" signs, one for each van (remember to bring tape to attach your signs on your vehicles). If your team was one of the first 25 teams to register, you will have an extra envelope with your early registration RTO merchandise discount coupon.

Third Station:

We give you more stuff. Your swag including your race shirts.

Fourth Station:

RTO merchandise.

Capital Odyssey and Comstock Odyssey Check in

Please plan to check in and attend the Captain's Meeting Thursday with the RTO teams. If you cannot, please contact Matt Balzer at matt@race178.com to make alternative arrangements.

Release / Authorization Form

In consideration of the acceptance of my entry and my participation in the Reno-Tahoe Odyssey Relay Run Adventure (hereinafter referred to as "the Event"), I, for myself, my heirs, executors, administrators and assigns, do forever release, waive, discharge and give up any and all claims of any kind whatsoever, including but not limited to claims for personal injury, death, property damage, lost wages, medical expenses, attorney's fees, and any other types of losses, damages, and costs, against the Event owners, promoters, organizers, staff, volunteers, sponsors, vendors, the United States, the State of Nevada, State of California, Nevada Highway Patrol, Nevada Department of Transportation, California Highway Patrol, California Department of Transportation, County of Washoe, County of Sierra, County of Nevada, County of Placer, County of El Dorado, County of Douglas, County of Lyon, County of Storey, City of Reno, City of Sparks, City of South Lake Tahoe, Carson City, Virginia City, Town of Truckee, Town of Genoa, and the owners and lessees of property used for the Event, and each of their officers, directors, shareholders, employees, representatives, agents, contractors, subcontractors, subsidiaries, agencies and assigns, which may arise in connection with the Event, even if the party whom I am releasing caused any such loss, damage or cost to some degree. I understand that the Event is potentially hazardous. I acknowledge that I have read the Odyssey Safety Manifesto for the Event. I acknowledge that I should not participate unless I am able to do so and properly trained. I voluntarily assume all risks associated with participating in the Event, including but not limited to running on roads open to traffic without sidewalks or designated running lanes, running at nighttime on roads without street lights or other lighting, crossing roads, adverse weather conditions, encounters with wild animals, and no aid stations, and I hereby accept responsibility for any such loss, damage or cost that I may incur in relation to such risks. If I require any medical treatment or care from emergency response authorities, I agree that I will be responsible to pay for such treatment and care. I grant full permission to the Event owners to obtain photographs, videotapes, or any other recordings of this event and to use them for the purpose of promoting the Event or to conduct other related business. I understand that the course may be modified as deemed necessary by the Event owners, and that the Event may be cancelled as deemed necessary by the Event owners. I understand that the entry fee is nonrefundable and nontransferable.

Fun Stuff

Now that we have addressed the serious stuff, let's get to the fun.

Official Reno-Tahoe Odyssey merchandise

On Thursday, Friday and Saturday we will be selling some great RTO merchandise including new versions of the 178 bigtruck hat (made locally), Miir tumblers and a great variety of 178 jackets, hoodies, shirts, tanks. The online store will have limited items until after the race.

RTO Circle of Fame

Some of you aspire to run every leg of the RTO. We have created a special club for runners who accomplish that very goal, of running all 36 legs of the course during their RTO career. That club is the ... **RTO Circle of Fame!**

Please let us know if you are becoming a member of this club after running your legs in this year's RTO. We will have some special swag for you. In order to qualify, please email Kelly at kelly@race178.com letting her know the years and legs that you ran. At the finish line, ask for Kelly to get your gear and be recognized. Congratulations to those runners joining this one of a kind club!

Check-in and Goodie bag pick-up

The team check-in and goodie bag pick-up will be across from the J Resort on Arlington Ave. in downtown Reno. See the details set forth above.

Check-in will be open from 4:15 to 7:30 p.m. Please check in earlier in this time frame to avoid lines and waiting. If you wait until the last hour, there probably will be a long line and you may not get your stuff until after the Captains Meeting is completed.

There will be multiple stations for you to pass through. We outline them above.

We'd appreciate it if your team completes the check-in process Thursday instead of Friday. But if you must do it Friday, we'll take care of you then. **However, for teams starting by 9 a.m. you must check in Thursday night.**

As for where to park, there are a number of J Resort parking lots that you may use very close to the parking lot where we will be located.

Captains Meeting

We will have the Captains Meeting in the parking lot there. It will start at approximately 7:35 p.m. It is NOT just for captains. Everyone is invited, so show up with the whole team. We will address items that came up since publication of the handbook. Items such as course modifications, road construction, detours, weather issues, etc. Plus we will have a lot of fun. We'll make special announcements about certain runners. We'd do a Top Ten Countdown of the Best Team Names and announce the winner of that contest. We'll of course answer any questions that you have. Even if you don't have any questions and you are ready to go, come to the meeting to relax before the relay and start bonding with your teammates and the other runners. Please note that this meeting is mandatory for at least one runner per team. If no one from your team can make it, please email Matt Balzer at matt@race178.com to make alternative arrangements to get the info discussed at the meeting.

Thursday Night Activities at or near Packet Pick-up in Downtown Reno

As for where to eat, drink and have fun, there are so many choices nearby including the J Resort where we have runner check in.

Parking at the Start of Reno-Tahoe Odyssey in Reno

Like past years, we will reserve the street parking spots along West First Street on the north side of the Truckee River across from the Wingfield Park island where we start. There is a pedestrian bridge that connects this area to the start area on the island in the middle of the river. So this is by far the best place to park. You will be in the best spot also to chase your runners down Riverside Drive.

Check-in and Goodie bag pick-up at the Reno-Tahoe Odyssey's Start

On race day Friday, check-in and goodie bag pick-up will occur at the start area at Wingfield Park West. The check-in process defined above will be the same one here. Please arrive 60 minutes before your start time to complete the check-in process.

For those teams who checked in the night before, please arrive 25 minutes before your assigned start time and just let us know you are there and ready to run.

If you want to be considered for Best Team Shirts and Best Team Vans, please let us know at the start area so we can give your team due consideration before you begin.

Parking in Idlewild Park on Friday night - BEWARE

Do NOT park along Cowan Drive, the main street into the park. There is a Food Truck event that evening. Your vehicle will be towed.

Furthermore, the City of Reno does not allow parking in the park overnight. So if you do it, you do so at your own risk.

Parking at the Start of the Capital Odyssey Relay at Exchange No. 24

There is a huge parking lot in front of the Carson Valley Super Walmart where Leg 25 begins, which is the first leg of the Capital Odyssey Relay.

Start of the Capital Odyssey Relay

The start will occur in close proximity to Exchange Point No. 24 at the intersection of Topsy Drive and the entrance driveway into the parking lot nearest Walmart. Look for the Capital Odyssey Relay start sign. Please be present 15 minutes before your assigned start time and check in with the starter there. At a minimum the Leg 1 runner of the Capital Odyssey Relay and an additional teammate with the official clipboard should be there, but all teammates are invited.

If your team was not able to complete the check in process on Thursday or Friday, then a modified check in process will happen here. Please arrive 45 minutes before your start time to complete the check in process.

For those teams who checked in Thursday or Friday, please arrive 30 minutes before your assigned start time and just let us know you are there and ready to run.

Parking at the Start of the Comstock Odyssey Relay at Exchange No. 30

There is a huge parking lot that begins at the intersection of Union and E Streets, just two blocks down the hill from the Bucket of Blood Saloon on C Street where Leg 31 begins, which is the first leg of the Comstock Odyssey Relay.

Start of the Comstock Odyssey Relay

The start will occur in close proximity to Exchange Point No. 30 in front of the Bucket of Blood Saloon on C Street. Look for the Comstock Odyssey Relay start sign. Please be present 15 minutes before your assigned start time and check in with the starter there. At a minimum the Leg 1 runner of the Comstock Odyssey Relay and an additional teammate with the official clipboard should be there, but all teammates are invited.

If your team was not able to complete the check in process on Thursday or Friday, then a modified check in process will happen here. Please arrive 45 minutes before your start time to complete the check in process.

For those teams who checked in Thursday or Friday, please arrive 25 minutes before your assigned start time and just let us know you are there and ready to run.

The Fun Contests

This year's fun contests for the runners are Best Team Name, Best Team Shirt, Best Costume, Best Decorated Team Vans and Most Spirited Team. We will announce the Best Team Name winner at the Captains Meeting. If RTO runners want to be considered for Best Shirt, Best Costume, and Best Decorated Vans, please let us know at the Start at Wingfield Park. Capital and Comstock Odyssey runners, let us know at the end at Idlewild Park. The Most Spirited Team will be the team who puts out the most energy and effort during the entire event up through their finish. We will hand out ballots for Most Spirited Team so you the runners can vote. Turn in your ballots at the Finish Line Festival.

Most Spirited Exchange Point Contest

Once again there will be a friendly contest amongst the volunteers working at the 35 exchange points. Each team van of runners will be allowed to cast one ballot for the "most spirited" exchange point for the legs that it covered. We will hand out ballots. Turn in your ballots at the Finish Line Festival.

The Leg 4 aka Donner's Downfall Time Trial

Leg 4 is the epic leg of the RTO course. It travels through beautiful mountain terrain with stunning views of Dog Valley and the High Sierra peaks. It is the longest leg on the course. There is no van support for the runner. Every team should have their strongest runner run this leg and be in the No. 4 spot in the runner rotation.

We call it “Donner’s Downfall” because many of the infamous Donner Party perished not far from where this leg ends. See our summary of the history along the course for more info.

The fastest male and female runner will get special recognition and special prizes. Same for the 178th runner in the field. No chips required.

Exchange No. 6 PRESENTED BY THE DOLAN AUTO GROUP at the Tahoe Forest Church

This is going to be a GREAT SCENE! The Dolan Auto Group will be putting on a special party for all of the runners. So be sure to enter the property, sample what they are serving, get your photo taken by the special photo stations, play a game, and hang out for a bit. Stay tuned for special announcements.

Exchange No. 12 at Homewood Mountain Resort

The scene at Homewood Mountain Resort is SPECTACULAR! Such a beautiful setting on the west shore of Lake Tahoe. The sun is setting casting a beautiful light over the lake. The night is on its way with runners donning all of their lights ... if they have not already put them on. Homewood Mountain Resort plans to have its on site restaurant open to serve you.

Exchange No. 18 at the Village Center at South Lake Tahoe

Starbucks and Jamba Juice stay open late.

Exchange No. 24 at the Super Walmart just south of Carson City

The Super Walmart is open 24 hours 7 days a week. What else do you need at 2 to 6 am in the oh so very early morning:) ? There is a Starbucks across Topsy Lane that opens early.

Exchange No. 30 in Virginia City

This has become probably the BEST scene on the entire course, a crowd favorite year after year! We close the main drag through town (which is a Nevada state highway) for one block, turning it into a runner and spectator zone exclusively. A number of businesses open very early (at 5 a.m.!!) including the Delta Saloon and Restaurant and the Bucket of Blood Saloon. As per tradition, the Virginia City High School graduating class will be selling breakfast burritos for a fundraiser. The world famous DJ The Rhino will be playing tunes to keep the excitement/celebration going.

Parking at the Finish Line Festival in or around Idlewild Park

We have reserved some a number of parking areas that you can use. As you drive into Idlewild Park on Cowan Drive, there are parking lots on your left for the Snowflake picnic area and the Terrace picnic area. You may park in there. Or park on the streets. Another good place to park is in the park on Spoon Drive adjacent to the softball fields. It is a short walk to the Finish Line Festival from there. You may also park along Idlewild Drive.

There are a few places where you are not allowed to park. DO NOT park in front of the California Building or in their parking lot. There will be a wedding there Saturday afternoon at 2 pm. DO NOT park in front of the Kiddieland play area along Cowen Drive. And please DO NOT park on the grass anywhere.

ONLY TEAM VANS WILL BE ALLOWED TO ENTER THE PARK ON COWAN DRIVE AND ACCESS THOSE PARKING AREAS. Please ask your family and friends to park at Reno High School or other locations and make the short walk to Idlewild Park.

The Finish Line Festival

We look forward to all of you returning to Reno and joining in the celebration at the Finish Line Festival at the end of the relay in Idlewild Park. This event is free and open to the public so invite your family, friends and others. There will be great food from Men Wielding Fire and Buenos Grill. We will serve cold beers from our official beer sponsor Revision Brewing. There will be some other sponsors and vendors including Asics, Tesla and ChiroFIT to help you with any body issues that you are having.

WE WILL OFFER EVERY RUNNER A COMPLIMENTARY CAN OF BEER at the finish; you will need to turn in a drink ticket which will be attached to your race bibs (and show your ID) to get the beer. You will need to pay for all other food and beverages, so have your wallet handy (which should only be a challenge for the runner who ran Leg 36). We will have a water station. Plan to re-fill your water bottles there. We will have paper cups too. There will be music to entertain you. So plan to hang out at the Finish Line Festival for a while after you cross the finish line with your teammates, enjoying great food, drink, and music, while sitting on the grass under a shade tree or putting your tired and aching feet in the Truckee River.

Please note that the City of Reno requires us to set up a perimeter around our Finish Line Festival so that no one can leave the park carrying open beers. Please also note that the City of Reno does not allow you to bring your own alcohol into Idlewild Park. Thank you for your cooperation.

Please do not bring your pets into Idlewild Park. The City of Reno fines us for every dog, cat, lizard, crocodile, etc.

Two Finish Lines

There will be two finish lines, the official one and the ceremonial one.

The official finish line will be at the point you turn off onto the Crooked Mile pathway along the Truckee River. That is when we will stop the clock for your team time. **Please only have one runner run through this finish line chute.**

The ceremonial finish line will be under the Finish arch. **That is where you will bask in glory as a team.** We will announce your team name to the cheering crowd. Your team can mug for photos for a few moments. Please arrange to have a family member or friend there to take your team photo.

Please note that with so many RTO, Capital and Comstock Odyssey teams, we will need to move you along relatively quickly. No posing for extended time periods there unless no other team is lined up.

Hot Tip: Get in line to enjoy your moment under the Finish banner whenever you want to do so, which may be when there is no line of teams waiting for their moment. At times there will be a line. If you don't want to wait in a line, just wait until there is not a line. If you do choose to wait when there is a line, please be patient, and make yourself comfy. Get a cold beverage and be enjoying it as you wait. We'll move teams along as reasonably quickly as possible.

Relay Line-up and Team Time Log Form

At the end of the relay, please turn in the Team Time Log if you completed one. To be eligible for winning your division, we need this form.

And don't forget to cast your ballots for the "most spirited" team and exchange point.

Team Captains: Finally a little something for all your hard work

At the finish please check in with the event staff to get your official captain's pilsner glass. In addition, we will give you a ticket to use to get a complimentary lunch. THANK YOU Captains for ALL of your efforts! Your teams could not do it without YOU!

Additional Info You Need To Know

No Chips for Timing

We will have a professional timing company handling the team times and the Leg 4 competition. These times will be posted periodically at the Finish Line Festival and on the website. But they do not use chips. So do not expect chips. Do not be alarmed when you do not receive a chip. In case this is not clear, there will not be any chips used.

Restrooms

Please use the portable toilets at each exchange point or other restrooms along the course that are open to the public. Do not go to the bathroom in the yards or on the property of residents near our exchange points or along the route.

Please be respectful of restrooms along the course that we have the right to use. One public restroom at a Nevada State Park facility at one exchange point was left in such HORRIBLE condition one year that we lost our privileges to use those restrooms.

Trash

In the past we have had some complaints about runners littering the course with water bottles and other trash. Please throw away all trash in the garbage cans near the portable toilets at exchange points or in other garbage cans along the course. This is not a typical road race where we follow behind you and pick up. We cannot do that for 178 miles. So please pick up after yourself. Thank you!

Recycle bins

There will be recycle bins at the van exchange points and at the Finish Line Festival. So plan to dump your plastic bottles there. Please help us be as "green" as possible.

Noise

There are many places on this course where you can whoop it up and ring those cow bells. But there are some places where we will not be well received if we make too much noise. Please be quiet during nighttime and early morning hours and in residential areas. This is particularly true around Exchange Point Nos. 13, 16, 21, 22 and 23 and along Legs 8 along Prosser Dam Road, 16 in the Tahoe Keys, 19, 22, 23 and 25. **Ex. 22 in Genoa is a definite QUIET ZONE so please no loud cheering or honking of any horns.** In addition to residents, there are bed and breakfasts there with guests. We don't want to wake up anyone there. We have in the past.

Gas stations and grocery stores

There are plenty of gas stations and grocery stores and quick stop mini marts located intermittently along the course. Nevertheless, you may want to gas up and get your supplies in the bigger cities along the way such as Reno and Sparks, Truckee, Tahoe City, South Lake Tahoe, and Carson City. Gas is probably least expensive in Reno, Sparks and Carson City.

Disqualifications

Only Matt Balzer has authority to pull a team from the relay and direct them to stop. If a volunteer at an exchange point or anyone else happens to tell your team that your team is disqualified and the relay is over for your team and you must stop, please call Matt at 775-771-1369 to confirm.

Running Faster than Projected?

IF YOU ARRIVE AT EXCHANGE 18 BEFORE 10:30 pm, we'll hold your team until then. IF YOU ARRIVE AT EXCHANGE NO. 24 BEFORE 2:30 a.m., we'll hold your team until then. Keep track of your time, when you arrive and when we re-start you. We will do the same. We will subtract that time from your overall time.

If you think you will get to either of these two exchanges before these two points of time, contact Matt Balzer about adjusting your start time.

We reserve the right to disqualify teams who are sandbagging and causing lots of problems. But as is noted above, only Matt Balzer can make that call.

Tagging

A fun ritual at relays is "tagging" other teams' vehicles with your team's distinct mark. People use little magnets or maybe even complete a quick drawing. Be sure that whatever materials that you use for tagging are temporary and fully removable. DO NOT make any permanent marks that damage the vehicles.

Sportsmanship

Many relay runners get very excited when they pass others along the route. They actually make little markings on their own vehicles to indicate how many runners their team has passed. This is called "keeping track of roadkill." But please don't be obnoxious about this practice. And make sure that every time you are passed you delete a marking. That's only fair!

Runner Line-up and Team Time Log

Each team will need to keep track of its total time on this form. Each team should have a watch that it uses to track its total time during the entire event.

THIS FORM MUST BE TURNED IN AT THE FINISH IF YOU ARE COMPETING FOR A TITLE.

Team Name: _____

Division: _____

Total Elapsed Time at Finish: _____

COMSTOCK

CAPITAL

Capital and Comstock Odyssey runners: use this form but use only the last 12 or the last 6 lines depending on your event.

Course Information Table

Below we provide the mileage for each leg and for each runner. In addition, we rate each leg as “E” for easy, “M” for moderate, “MC” for more challenging, or “MD” for most difficult – no, not as in MD for “call a doctor.” Lastly, we rank the line-up positions from most difficult (1) to easiest (12). With this information, you should be able to assign your runners to their positions in the line-up.

	1st Leg			2nd Leg			3rd Leg				
Runner	Leg	Miles	Rating	Leg	Miles	Rating	Leg	Miles	Rating	Total	Ranking
1	1	4.8	E	13	6.2	MC	25	3.3	E	14.3	10
2	2	4.5	M	14	6.7	MD	26	5.2	M	16.4	2
3	3	5.7	M	15	5.5	MC	27	3.9	M	15.1	5
4	4	8	MD	16	3.5	E	28	4.8	M	16.3	4
5	5	5.8	M	17	3.3	E	29	3.4	MC	12.5	9
6	6	5.4	M	18	3.5	E	30	3.5	MD	12.4	12
	Miles 34.2			Miles 28.7			Miles 24.1			87.0	
7	7	7.3	MC	19	4.2	MD	31	3.1	MD	14.6	1
8	8	3.8	M	20	4.3	M	32	3.3	MD	11.4	8
9	9	5.2	M	21	3.7	M	33	6.6	MC	15.5	6
10	10	5.0	M	22	5.8	M	34	5.1	M	15.9	7
11	11	5.1	M	23	6.2	M	35	6.2	M	17.5	3
12	12	6.2	M	24	3.3	E	36	5.4	M	14.9	11
	Miles 32.6			Miles 27.5			Miles 29.7			89.8	

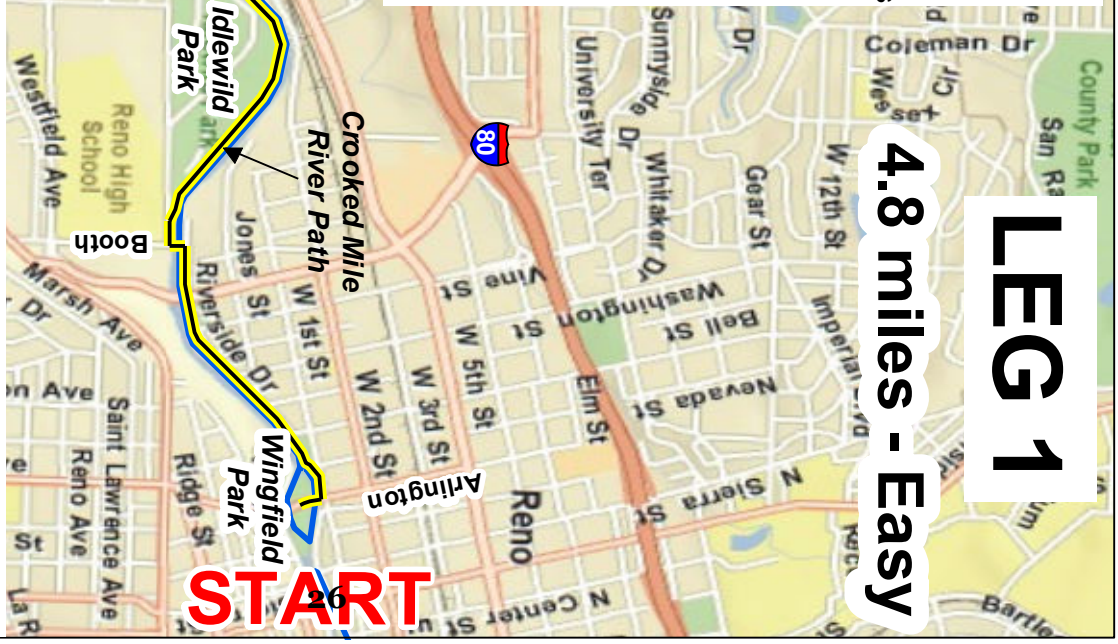

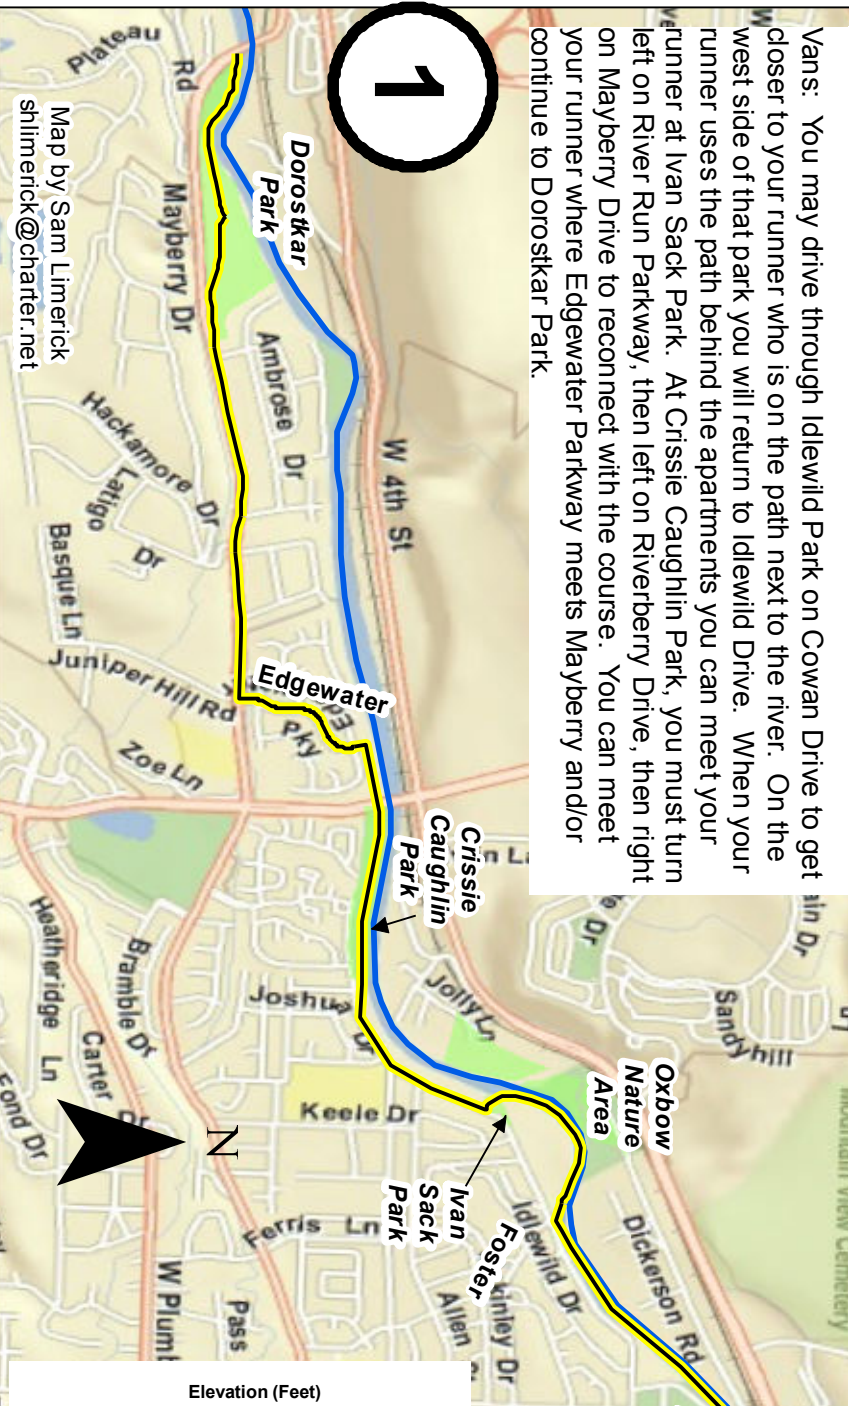

This leg is from Wingfield Park West in Downtown Reno to Dorostkar Park in Southwest Reno.
Most of this leg travels alongside the Truckee River.

- a.. Start at Wingfield Park West
- b.. Cross the Truckee River on sidewalk of the Arlington Avenue north side bridge
- c.. Turn left on First Street
- d.. Veer left onto the pedestrian pathway and run due west adjacent to Riverside Drive for about 0.5 miles
- e.. Turn left at Booth Street crossing the river on the bridge
- f.. Turn right at Idlewild Drive running on the sidewalk on the right side of the street for about 0.1 miles
- g.. Veer right into Idlewild Park using the pedestrian pathway
- h.. Stay on the pathway literally next to the river for about 0.9 miles (aka the Crooked Mile)
- i.. The pathway will become sidewalk along Idlewild Drive
- j.. Where Foster Drive deadends at Idlewild, veer right on the pathway behind the apartments to Ivan Sack Park for about 0.3 miles
- k.. Continue along Idlewild Drive for 0.4 miles
- l.. At Crissie Caughlin Park, continue due west and access the pedestrian pathway crossing over the foot bridge and running next to the river for about 0.5 miles
- m.. Exit the pathway onto Edgewater Parkway and run straight for about 0.3 miles
- n.. Turn right on Mayberry Drive and run with traffic in the bike lane or on the sidewalk for 0.7 miles
- o.. Veer right onto the pathway into Dorostkar Park and continue on the path for almost 0.6 miles to the exchange

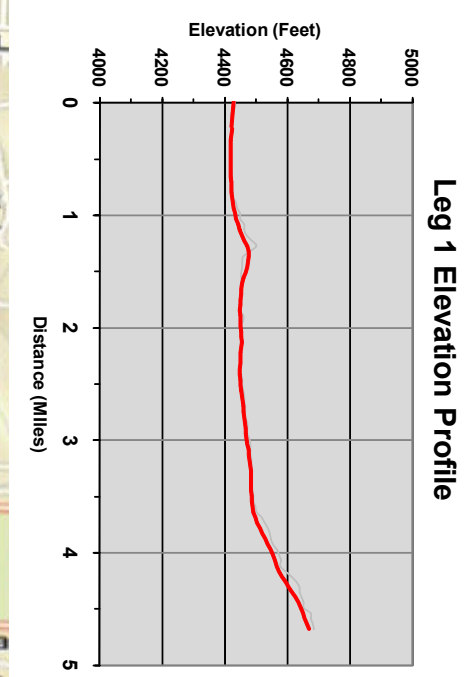

Vans: You may drive through Idlewild Park on Cowan Drive to get closer to your runner who is on the path next to the river. On the west side of that park you will return to Idlewild Drive. When your runner uses the path behind the apartments you can meet your runner at Ivan Sack Park. At Crissie Caughlin Park, you must turn left on River Run Parkway, then left on Riverberry Drive, then right on Mayberry Drive to reconnect with the course. You can meet your runner where Edgewater Parkway meets Mayberry and/or continue to Dorostkar Park.

1

LEG 1

4.8 miles - Easy

4.5 miles - Moderate

- This leg is from Dorostkar Park to the Somerset Ridge Parkway in west Reno.

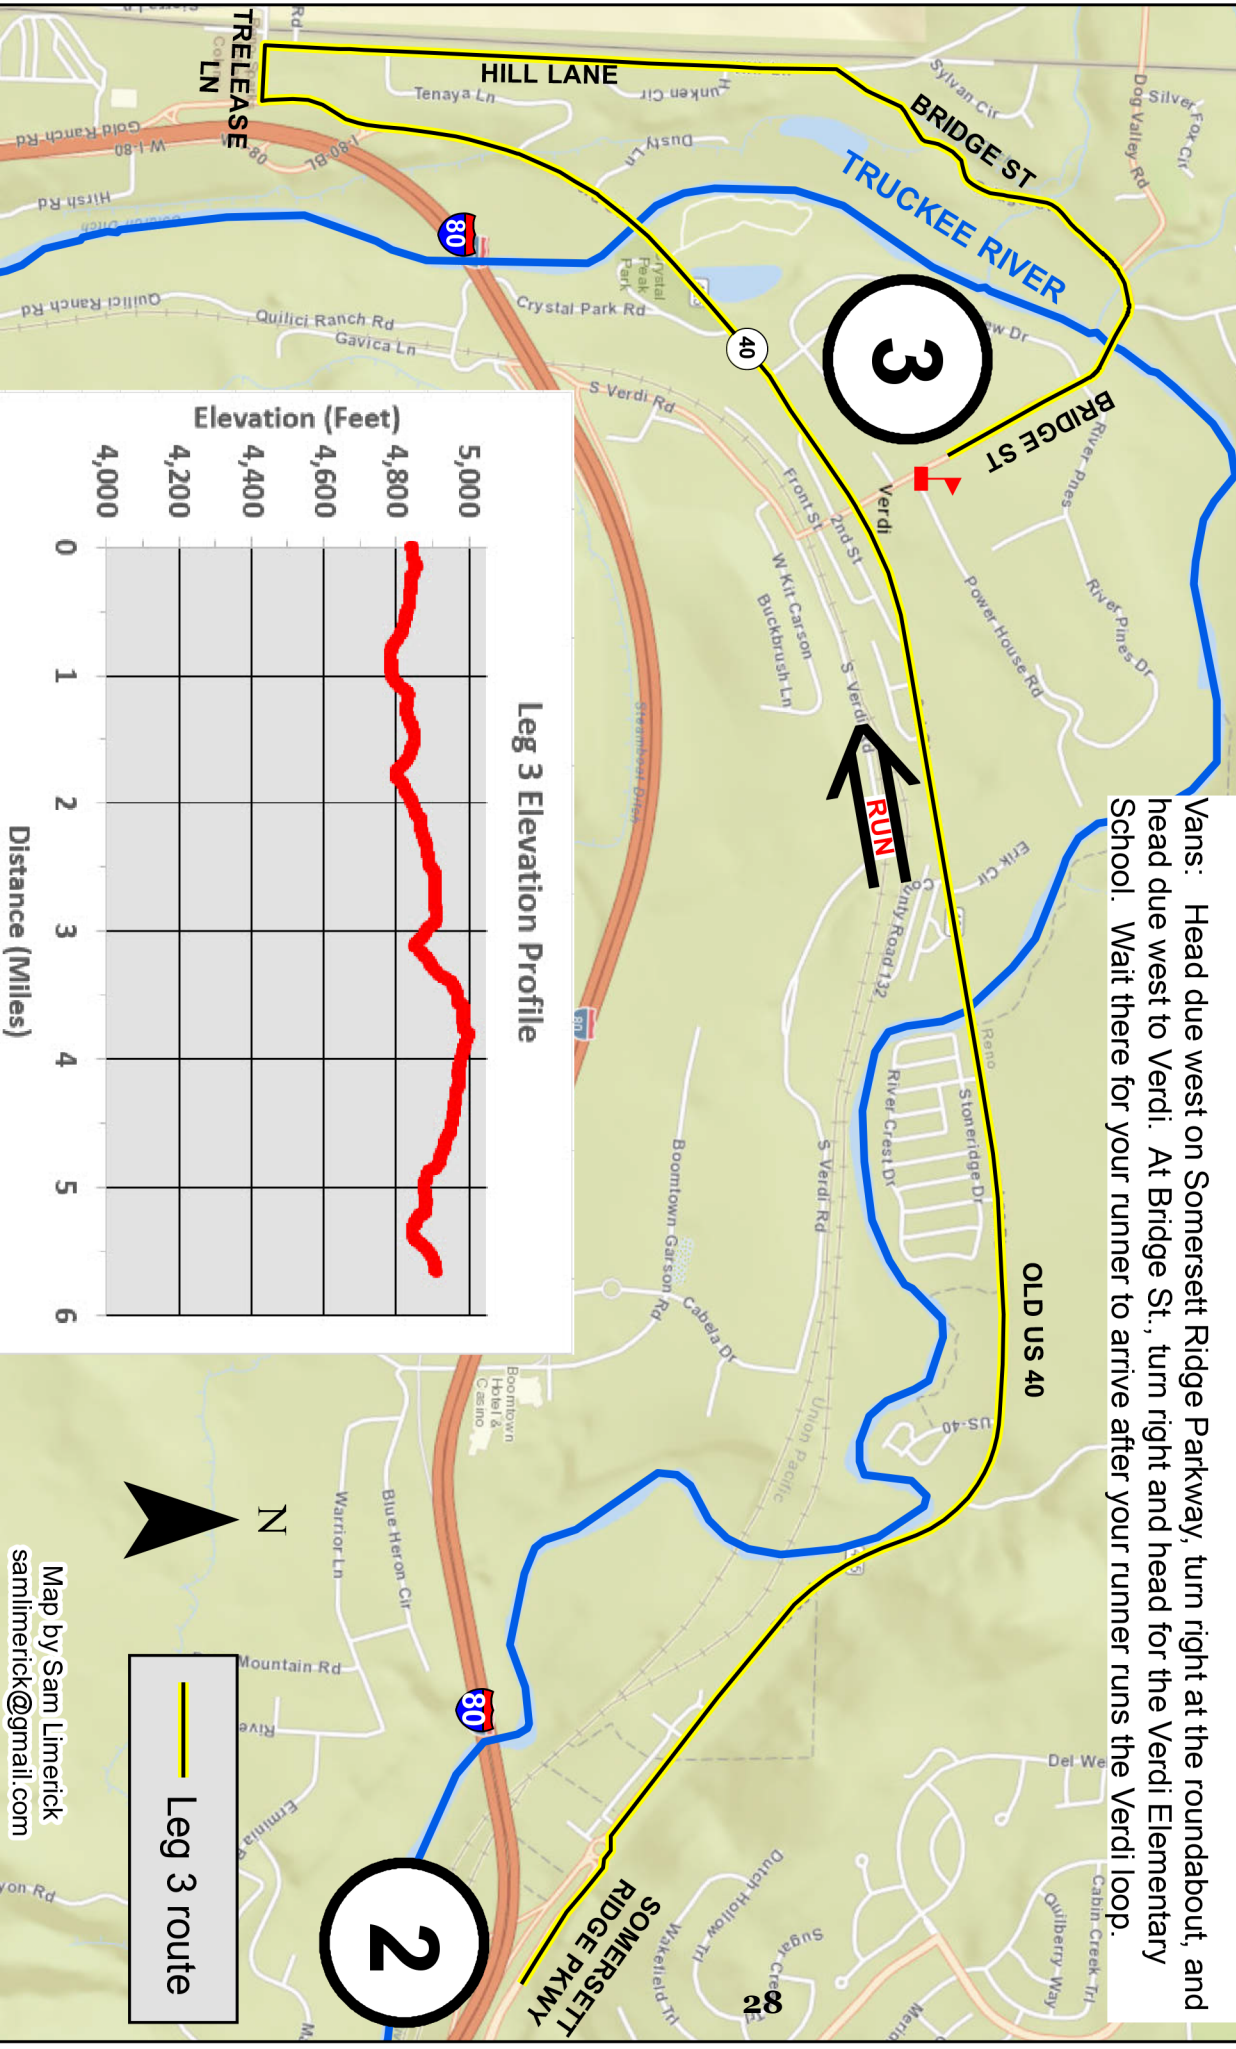

Community

LEG 3

5.7 miles - Moderate

- This leg loops through Verdi back to the Verdi Elementary School.
- Continue west along Somersett Ridge Parkway for 0.2 mi
 - At the roundabout, turn right and run due west on Old U.S. 40, running WITH TRAFFIC, all the way through Verdi, for 3.5 miles
 - Right on Trelease Lane for 0.1
 - Right on Hill Lane for 0.9
 - Right on Bridge St. for 1.0, stopping at Verdi Elementary School

Vans: Head due west on Somersett Ridge Parkway, turn right at the roundabout, and head due west to Verdi. At Bridge St., turn right and head for the Verdi Elementary School. Wait there for your runner to arrive after your runner runs the Verdi loop.

LEG 4

8 miles -
Most Difficult

3

4

This leg travels the Dog Valley and Henness Pass Roads to the start of the paved Stampede Dam/ Meadows Road.

Vans: Return to Old U.S. 40. Turn right on that road and drive past the Gold Ranch and enter I-80 westbound. Drive 13 miles on I-80 and exit at the Hirschdale Road exit (exit no. 194). Turn left and drive on the Stampede Dam- Meadows Road past Boca and Stampede Reservoirs to the exchange point and wait for the runner to arrive.

- Run on Bridge Street (backtracking what the Leg 3 runner just ran) for about 0.3 mi.
- Turn right on Dog Valley Road and proceed up the hill about 1.5 miles, crossing into California and continuing to end of the paved road
- The paved road becomes a dirt road as you enter the Humboldt-Toiyabe National Forest
- Stay on the main road on a **STEEP CLIMB UP** the canyon for about another 2 miles to the "false summit" where there is an aid station to top off your water bottle(s)
- Veer left continuing on the main road – **DO NOT TURN RIGHT** and descend into Dog Valley
- Gradually climb about 2 more miles to the real summit
- Stop and enjoy that view of the Sierra Nevada peaks
- Continue straight on the main road downhill for last 2 mi to exchange

Leg 4 Elevation Profile

4

LEG 5

5.8 miles - Moderate

Leg 5 Elevation Profile

This leg is from the start of the paved Stampede Dam/Meadows Road to the Boyington Mill campground site.

a..Proceed along Stampede Dam- Meadows Road, running WITH traffic, to the exchange point at Boyington Mill campground site

5

Boyington Mill
Campground

LEG 6

5.4 miles - Moderate

5

This leg passes by the Boca Reservoir and continues south on Hirschdale Road ending at the intersection with Glenshire Drive.

- Continue along Stampede Dam/Meadows Road running by Boca Reservoir until you reach the turnoff to the Boca Dam at 4.0 miles.
- Continue straight on this road down the hill, across the railroad tracks, over the Truckee River, under I-80 and stopping at the intersection with Glenshire Drive for 1.4 miles. PLEASE NOTE that when you reach the railroad tracks be sure to cross to the side of the road so you are running against traffic the rest of Leg 6.

— Leg 6 Route

N

Map by Sam Limerick
samlimerick@gmail.com

Leg 6 Elevation Profile

This leg crosses the Boca Dam, traverses to Prosser Reservoir, crosses the Prosser Dam and ends on the far side of Prosser Reservoir.

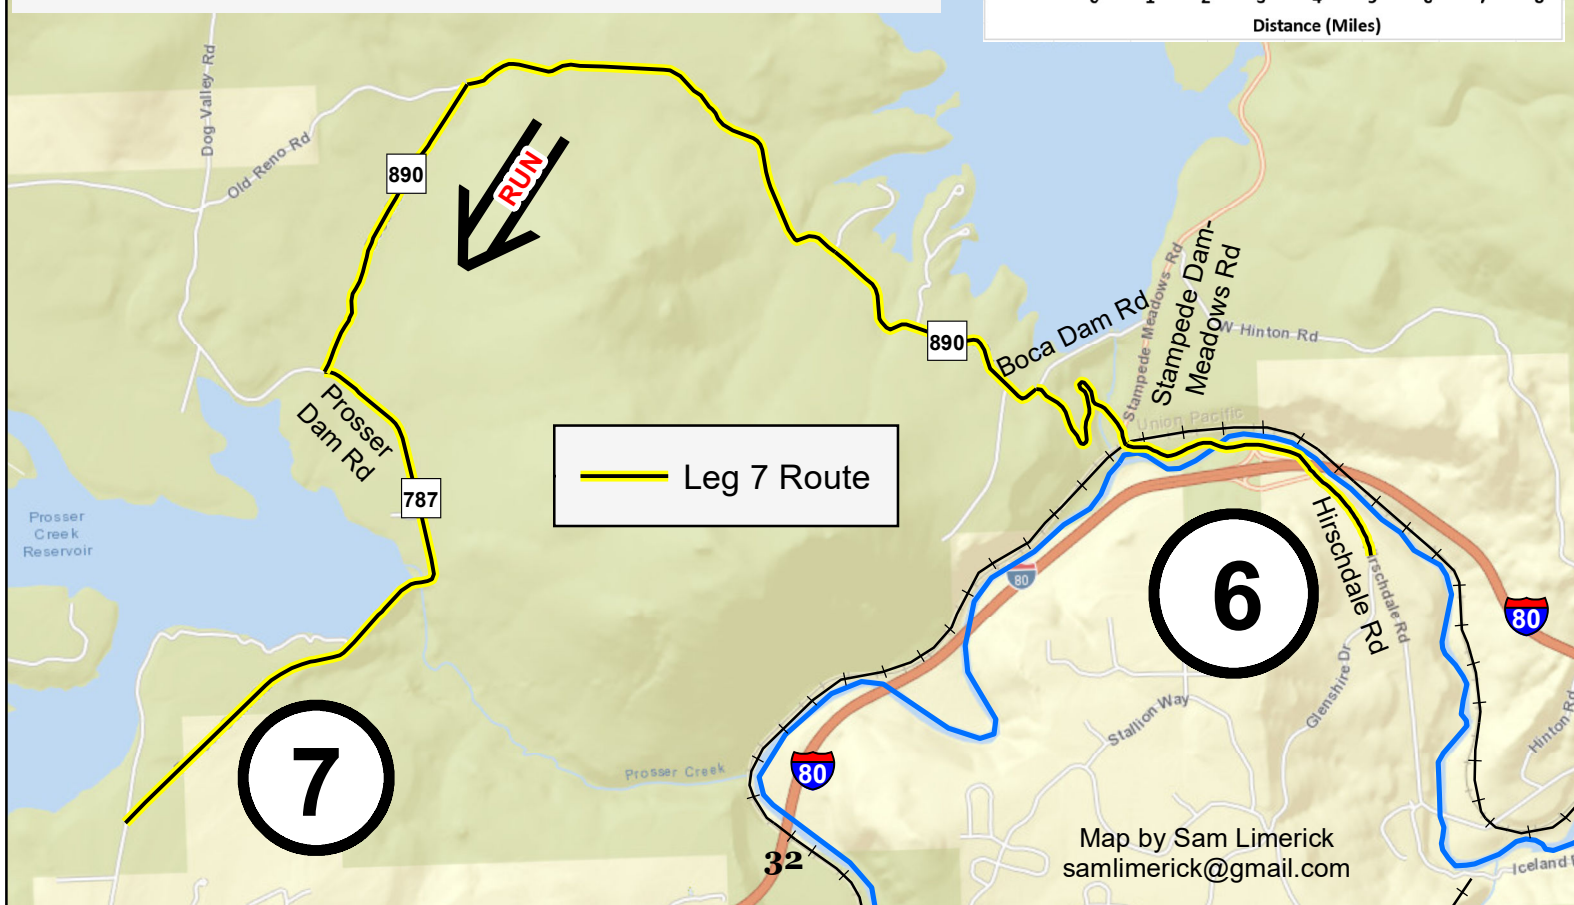

- Running with traffic, head north on Hirschdale Road under I-80 and over the Truckee River to the railroad tracks, a distance of 1 mile, then cross to the other side of the road.
- Now running against traffic, run only about 50 yards along the road.
- Veer left onto the dirt and follow the dirt road about 150 yards to the pedestrian bridge.
- Cross the pedestrian bridge and run along the fence line on the path and dirt road for about 250 yards.
- Turn left and run up the hill on the dirt road for about 0.5 miles.
- When you reach the paved road which is Nevada County Route 890, turn left and run for 0.9 miles.
- The pavement ends but continue on the dirt road portion of Nevada County Route 890 for 1.6 miles.
- At the junction veer left continuing on the unpaved Nevada County Route 890 for 1.0 miles.
- At the next junction turn left on the unpaved Nevada County Route 787 towards Prosser Dam for 0.8 miles.
- Cross Prosser Dam and continue on the unpaved main road with Prosser Reservoir on your right for 1.3 miles until you reach the exchange where the paved Prosser Dam Road begins.

LEG 7

7.3 miles -
More
Challenging

Vans: head due north on Hirschdale Road about 0.3 miles passing under the freeway and then immediately enter Interstate 80 heading west for Truckee. Proceed almost 6 miles. Take the State Route 89 exit and turn right heading north toward Sierraville. Proceed north about 0.5 mile. Turn right at the second roundabout onto Prosser Dam Road. Drive less than 2 miles through the Grays Crossing golf community and beyond to Exchange Point No. 7 in the dirt pullout area on the left where the paved Prosser Dam Road ends. Please drive slowly on Prosser Dam Road and watch out for Leg 8 runners running at you on the narrow part of this street.

This leg passes through the Grays Crossing golf community and enters historic downtown Truckee from the north.

- a....Continue on Prosser Dam Road which is paved for 0.9 miles. This is narrow so runners and van drivers need to be extra careful.
- b....Access the paved pedestrian path on the right side and continue for 0.9.
- c....At the junction with CA State Route 89, carefully cross at the roundabout.
- d....Continue straight due west on Alder Drive for 0.3.
- e....Turn left on Comstock for about 1 mile.
- f....Turn left on Pioneer Trail Road and go only 0.1.
- g....Turn right on Trails End Rd. which is partially a parking lot for some businesses there and run about 75 yards
- h....Turn left onto the pedestrian pathway. Head due south toward the freeway, then parallel to the freeway, a total of about 0.5
- i....Left on Euer Valley Road which is the paved road that you reach, running down the hill for about 0.2

LEG 8

7

3.8 miles -
Moderate

Vans:

When the runner turns onto the Pioneer Trail paved pedestrian path, vans need to continue east on Pioneer Trail Road. Then turn right on Donner Pass Road. Cross over the freeway and go down the hill. Turn right on Church Street, then right again on Bridge Street. At the intersection of Bridge and Jibboom, continue on Bridge passing under the freeway to the exchange point. All vans should park beyond the exchange on Bridge. To park here, continue up the hill, make a u-turn at the end, and then park on the right side of the street facing down the hill toward the exchange.

Leg 8 Elevation Profile

Leg 8 Route

8

Map by Sam Limerick
shlimerick@charter.net

This leg exits Truckee and heads for Lake Tahoe.

- Left on Bridge St. passing under the freeway for 0.2 miles
- Right on Jibboom for 0.2 miles
- Left on Spring for less than 0.1 miles
- Right on Donner Pass Road for about 0.3. Runners must run on the sidewalk on the right side or westbound side of the road running WITH TRAFFIC.
- As you approach the roundabout, CROSS Donner Pass Road in the marked crosswalk. This crosswalk is just before you get to the roundabout.
- Stay on that sidewalk on the other side of Donner Pass Road heading west going around the roundabout. You will run about 30 yards.
- Left on McIver Crossing, the street that heads under the railroad tracks.
- IMMEDIATELY CROSS McIver Crossing in the marked crosswalk. So now the runner will be on the sidewalk on the other side of McIver.
- Run on the sidewalk only about 30 yards.
- VEER RIGHT onto the paved pathway that heads up the hill toward the Sierra College campus.
- Run due west on the paved pathway to the Sierra College campus. Continue due west through the parking lot. Then continue due west on the sidewalk adjacent to the entrance road into the Sierra College campus. This will be about 0.9 mi.
- Left at CA State Route 89 running on the sidewalk heading due south. You will pass through the pedestrian "mouse hole" that is the tunnel under the railroad tracks. Continue due south to the big intersection with West River St. The distance along this part of CA State Route 89 is 0.5 miles.
- At the big intersection, CROSS CA State Route 89 using the marked crosswalk. You MUST wait for the traffic signal to turn green.
- On the other side, turn left and run WITH TRAFFIC for about 3.0 miles. Stay as far away off the roadway as possible. Run on the dirt when you can. Do not cross over the white line separating the traffic lane.

LEG 10

5.0 miles - Moderate

This leg continues along Highway 89 to the turn-off Squaw Valley.

- a.. Continue along Highway 89, running WITH traffic using the shoulder/bike lane
- b.. At Squaw Valley Road, CAREFULLY cross that road at the traffic signal and turn right on the other side
- c.. Proceed along Squaw Valley Road, running AGAINST traffic for 0.1 mi
- d.. Stop at the exchange point at Squaw Valley Park

Vans: park in the park's parking lot. DO NOT PARK on the other side, aka north side, of Squaw Valley Road.

Leg 10 Elevation Profile

10

35

10

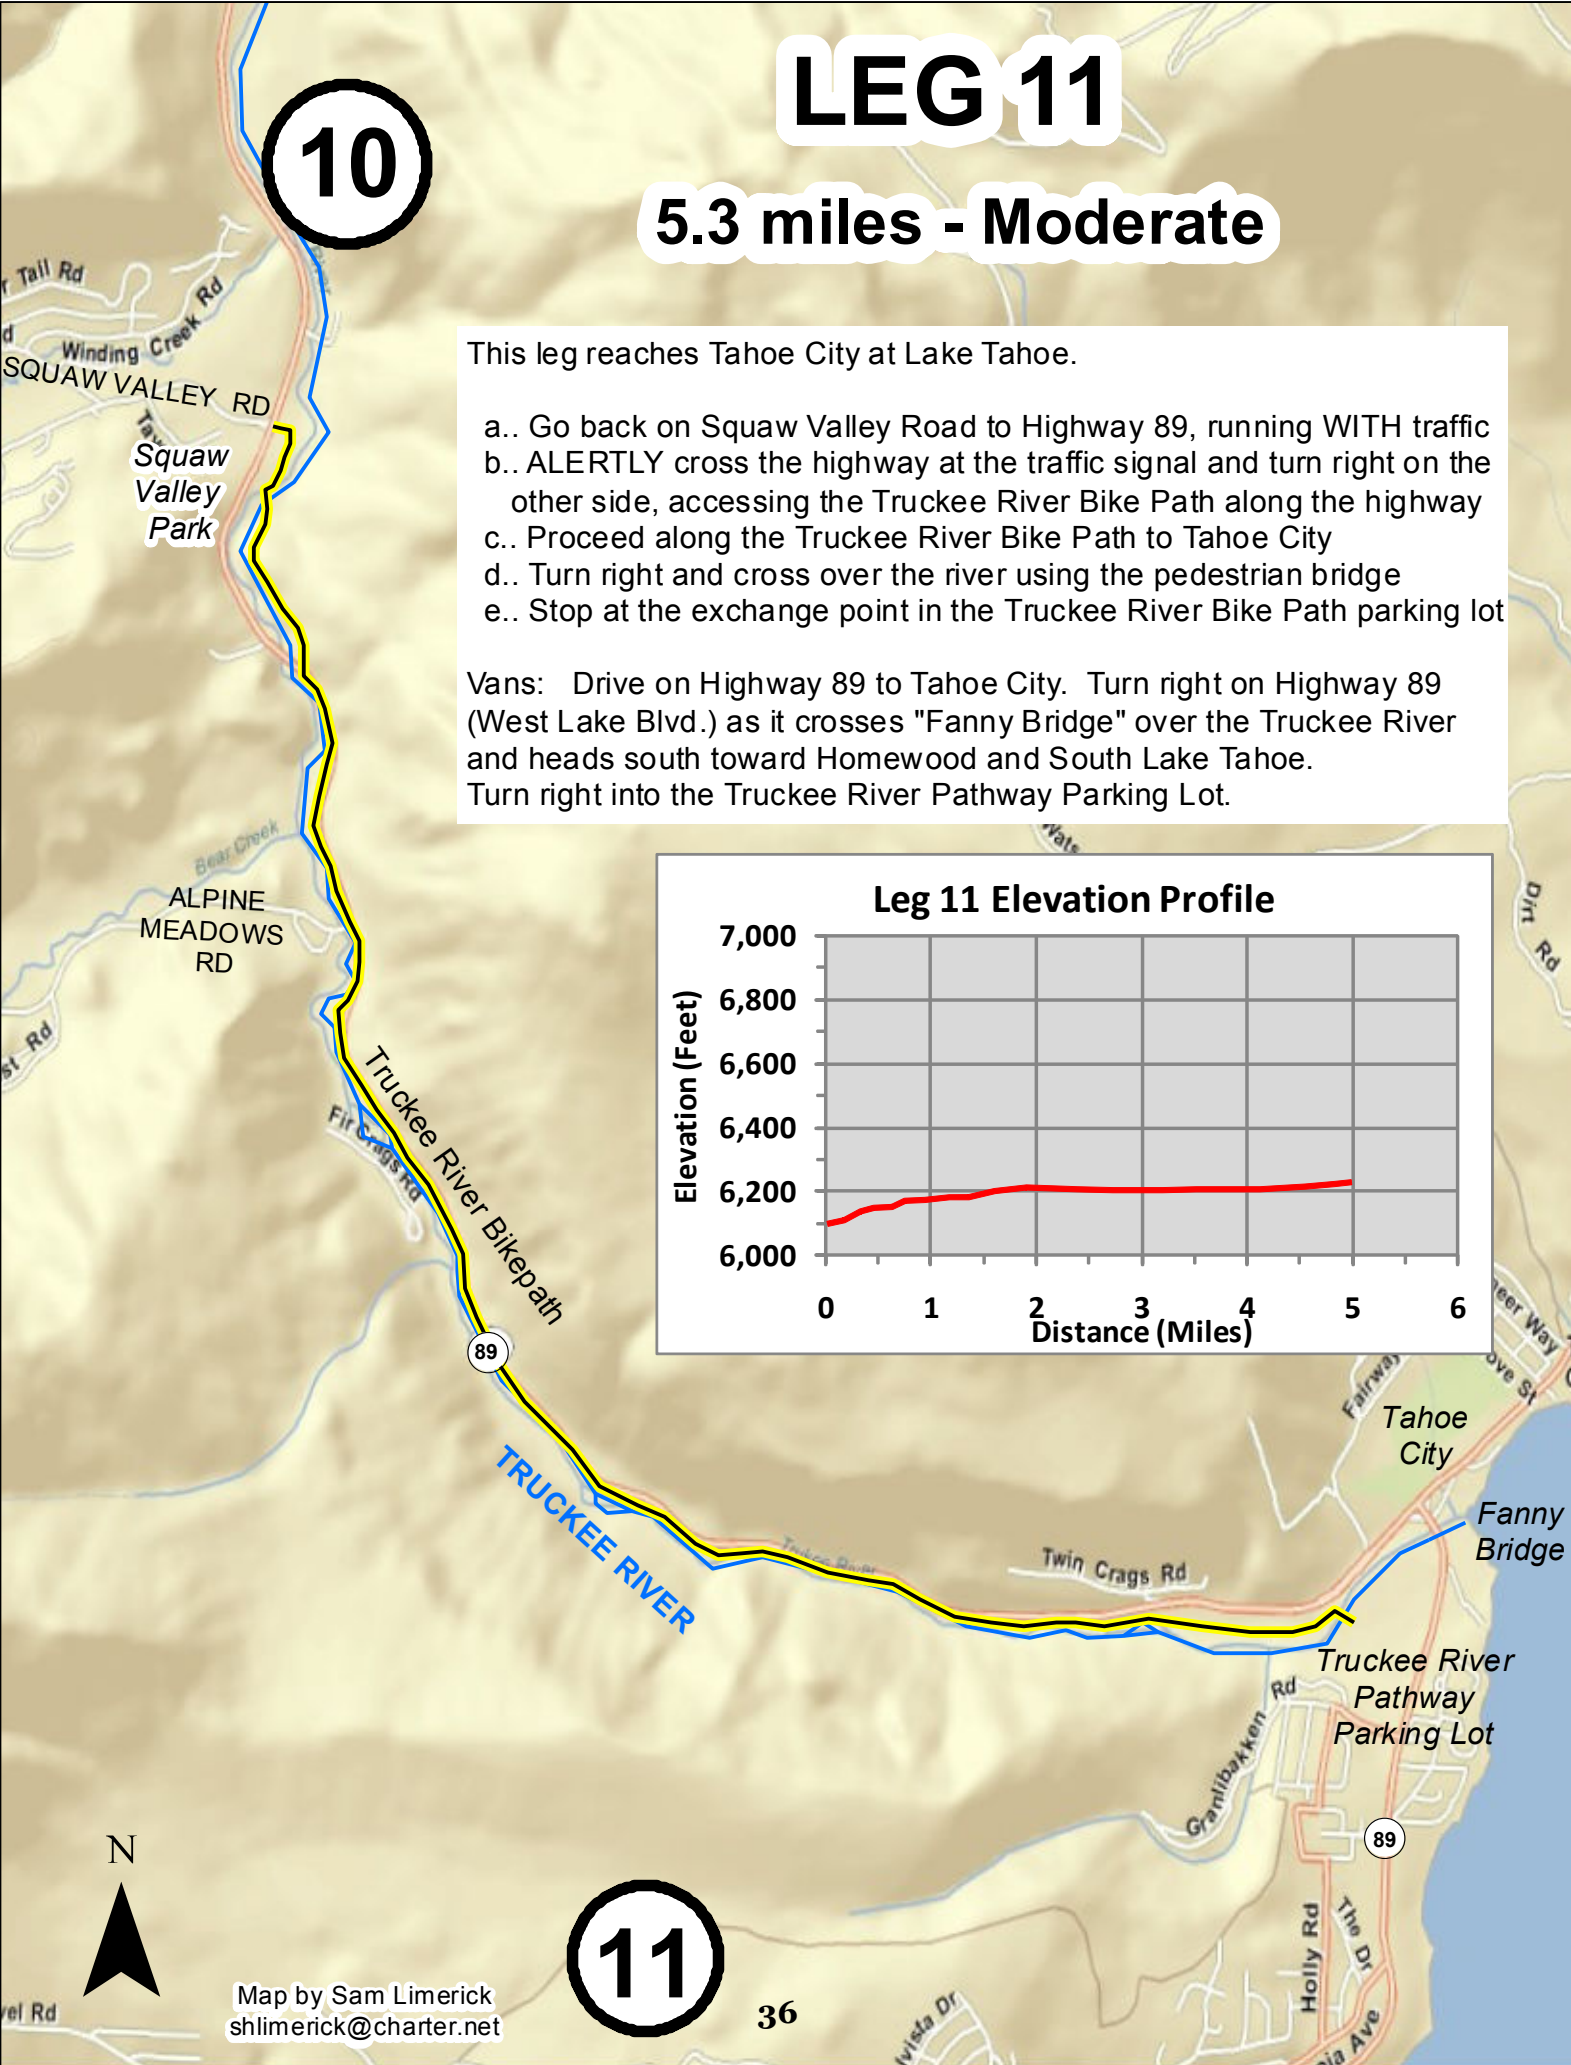

LEG 11

5.3 miles - Moderate

This leg reaches Tahoe City at Lake Tahoe.

a.. Go back on Squaw Valley Road to Highway 89, running WITH traffic
b.. ALERTLY cross the highway at the traffic signal and turn right on the other side, accessing the Truckee River Bike Path along the highway
c.. Proceed along the Truckee River Bike Path to Tahoe City
d.. Turn right and cross over the river using the pedestrian bridge
e.. Stop at the exchange point in the Truckee River Bike Path parking lot

Vans: Drive on Highway 89 to Tahoe City. Turn right on Highway 89 (West Lake Blvd.) as it crosses "Fanny Bridge" over the Truckee River and heads south toward Homewood and South Lake Tahoe. Turn right into the Truckee River Pathway Parking Lot.

11

LEG 12

6.2 miles - Moderate

This leg travels down the west shore of Lake Tahoe to Homewood.

- Exit the Truckee River Bike Path parking lot
- Turn right on West Lake Blvd (Highway 89)
- Continue along West Lake Blvd (Highway 89) to Homewood, running WITH traffic either on the shoulder or using the bike path when it is on that side of the road
- Stop at the exchange point at the parking lot for Homewood Ski Resort

N

Leg 13 Elevation Profile

This leg continues along the west shore of Lake Tahoe to Rubicon Bay.

- Continue along West Lake Blvd (Highway 89), running WITH traffic either on the shoulder or using the bike path when it is on that side of the road and running CAUTIOUSLY.
- Stop at the exchange point at Silvertip Drive in the Rubicon Bay area.

Vans: Please park either on the downhill side of Silvertip Dr. or up above Silvertip Dr. DO NOT PARK on Hwy. 89. DO NOT PARK on the uphill side of Silvertip Dr. because this blocks the street.

13

Rubicon Bay

13

LEG 14

6.7 miles - Most Difficult

Leg 14 Elevation Profile

N

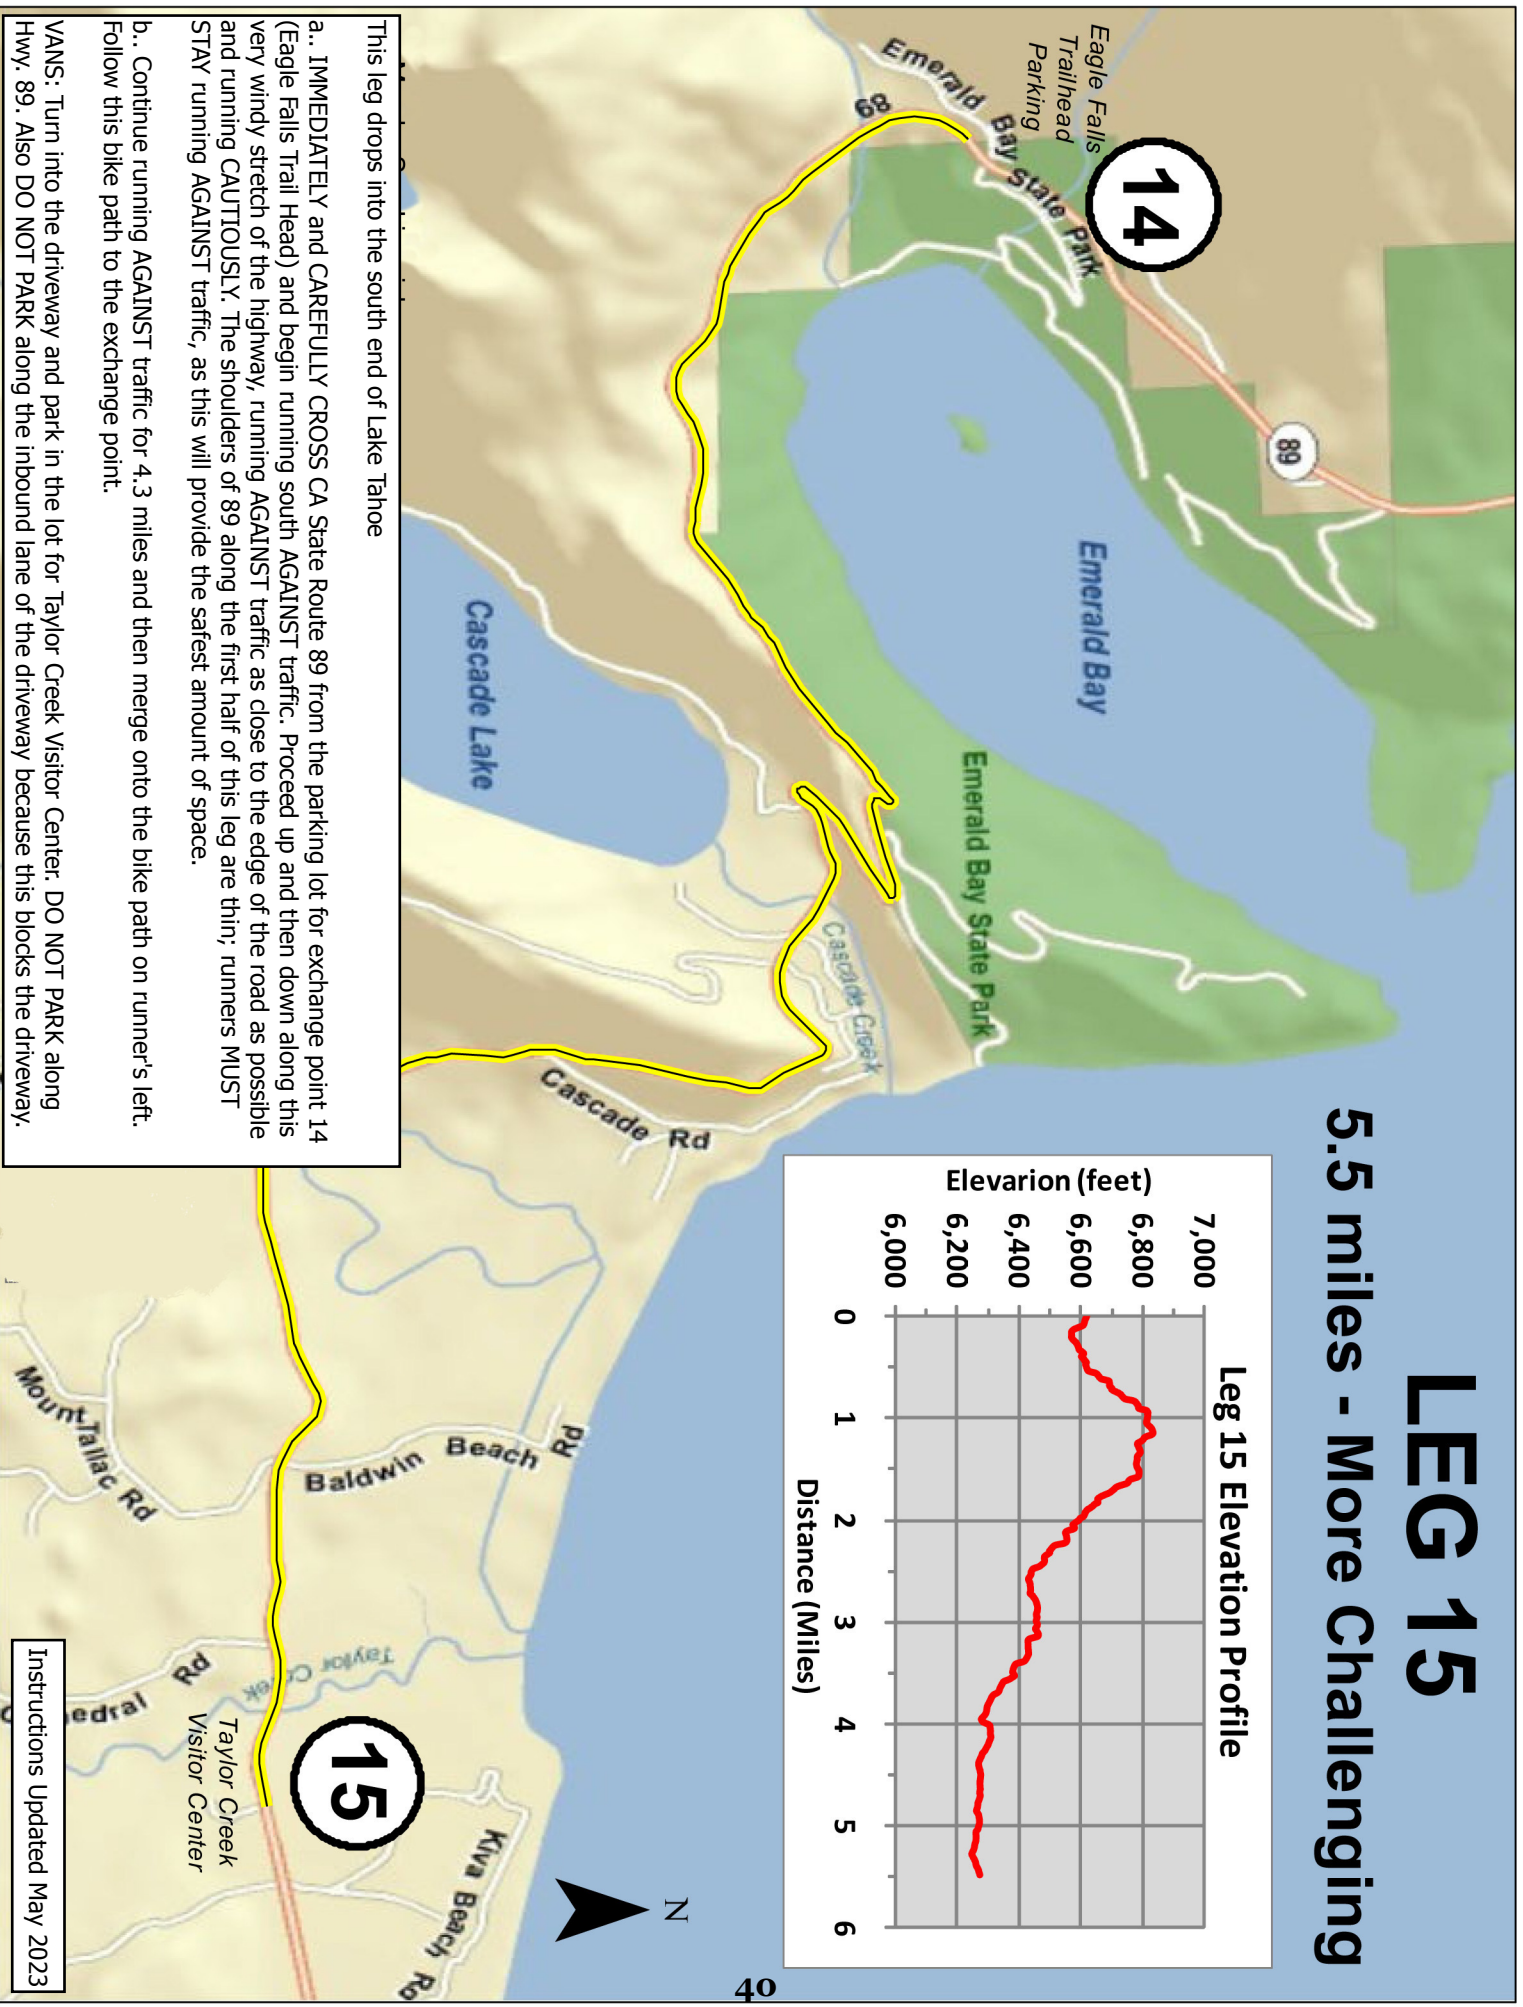

This leg continues along the west shore to Emerald Bay.

- Continue along Highway 89 climbing up and then dropping into the Emerald Bay area, running WITH traffic on the shoulder and running CAUTIOUSLY
- Stop at the exchange point at the parking lot for the Eagle Falls Trailhead

14

LEG 15

5.5 miles - More Challenging

LEG 16

3.5 miles - Easy

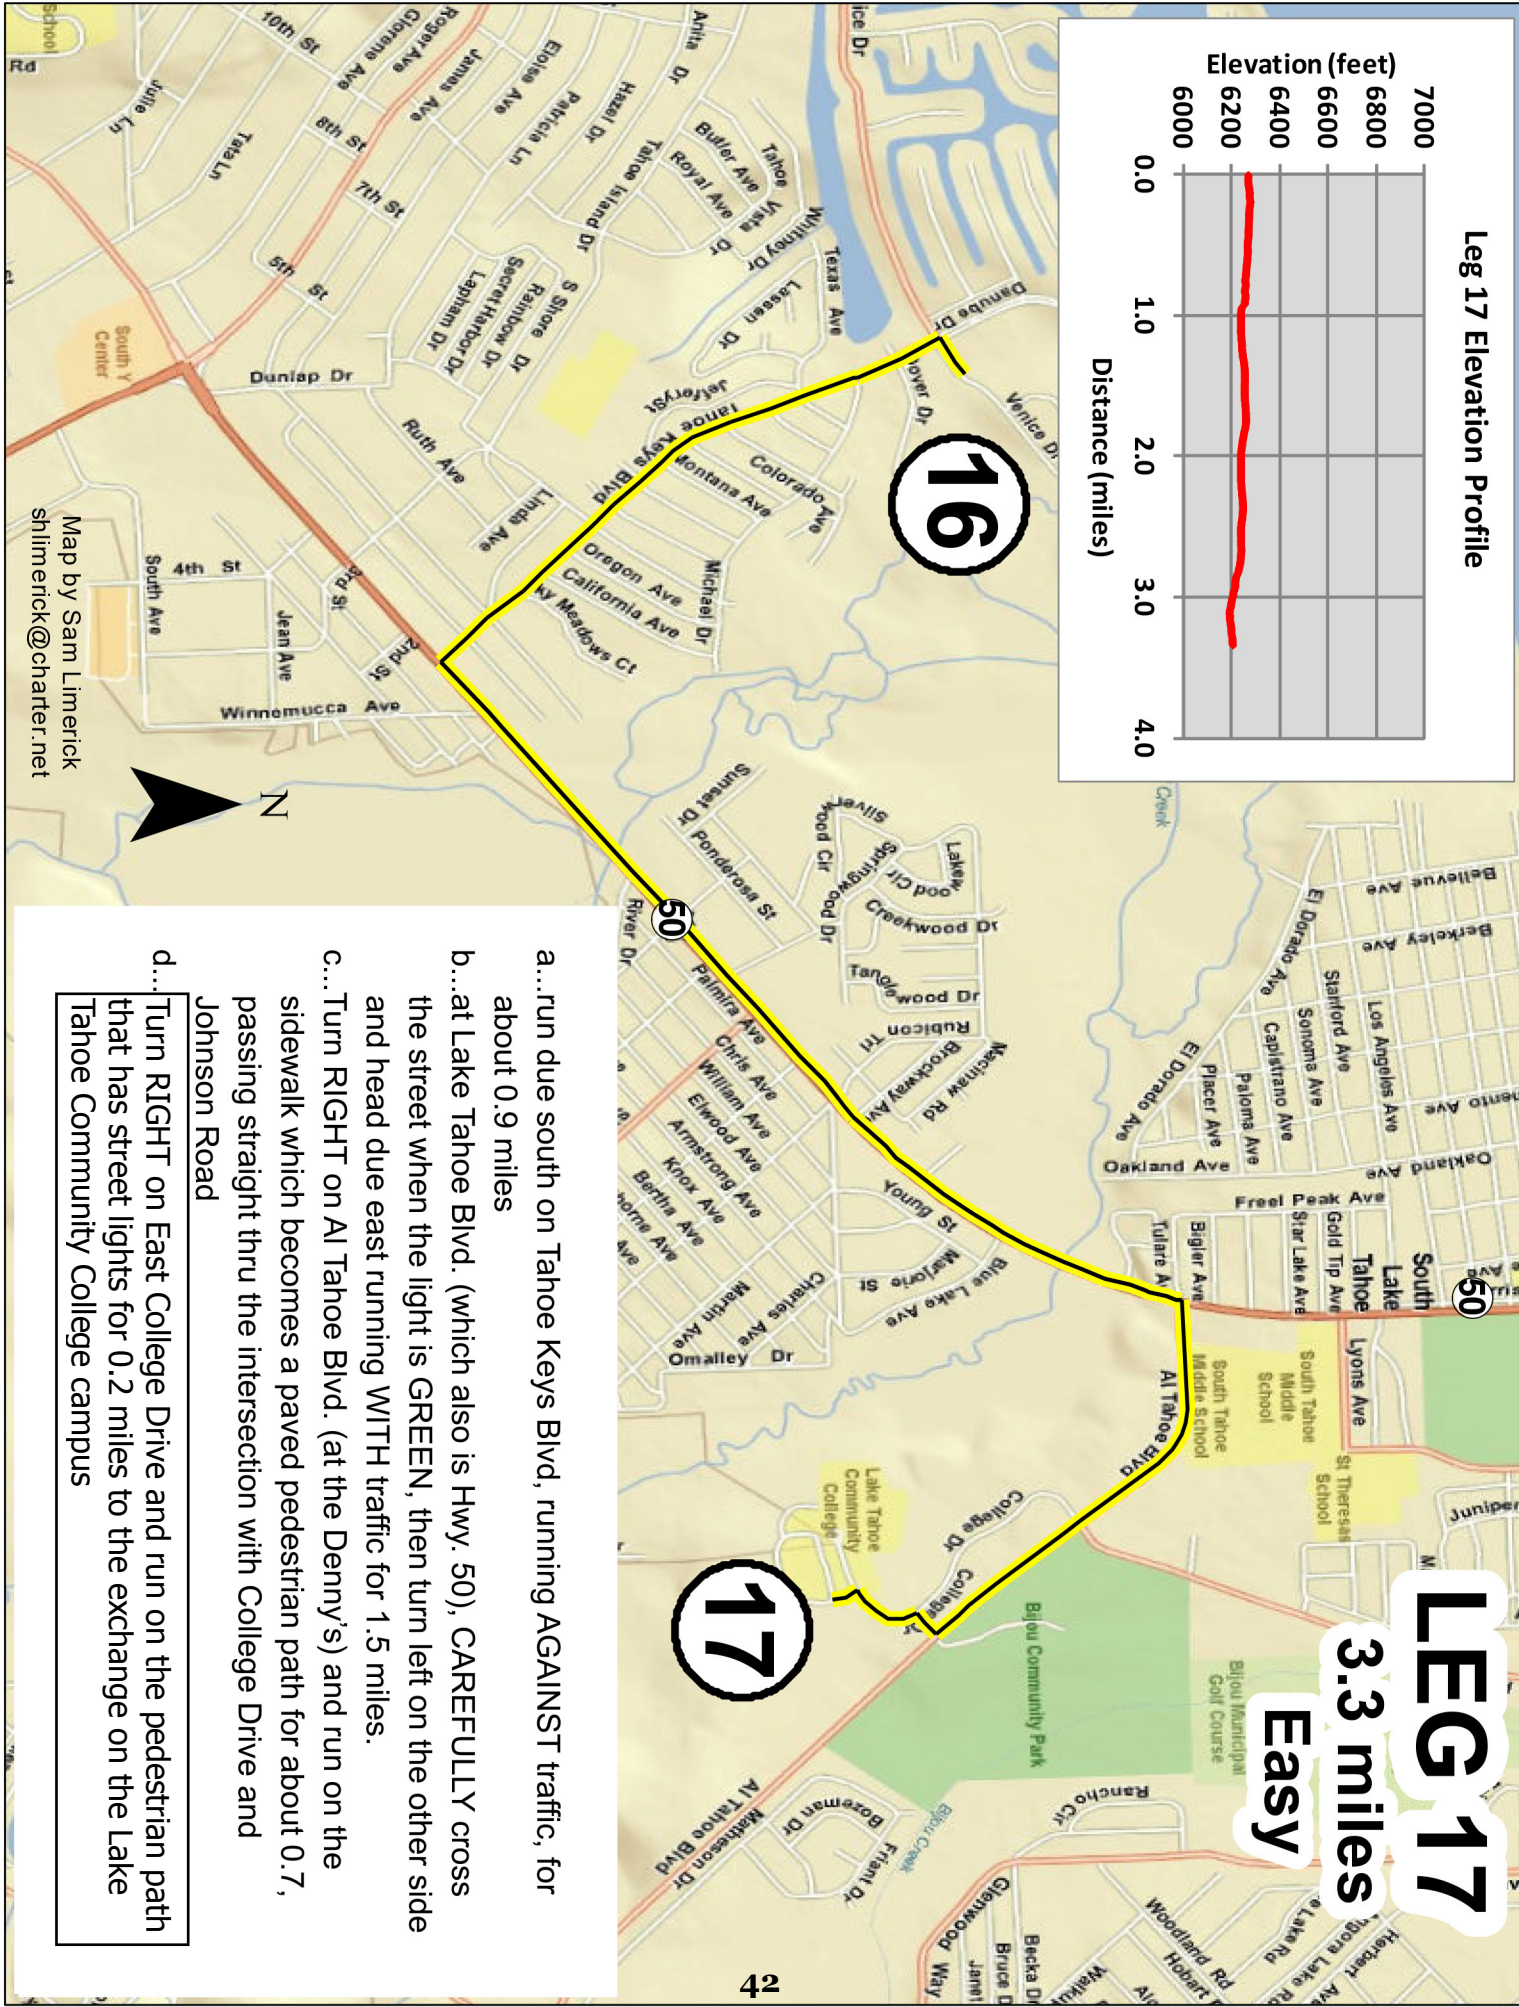

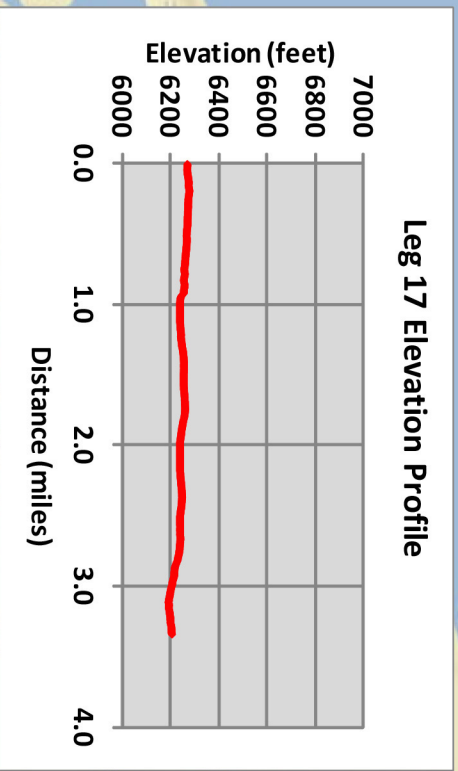

Map by Sam Limerick
shlimerick@charter.net

Leg 16 Elevation Profile

- This leg enters the city of South Lake Tahoe and ends in the Tahoe Keys area.
- Continue along Highway 89, running AGAINST traffic either using the shoulder or the bike path. Please note the bike path is parallel Ave to the road just north of the road. Distance is 2.1 miles.
 - Just past the Fireside Lodge, turn left on 15th St. and run toward the lake for about 0.4 miles.
 - Turn right on Venice Dr. and run due east. This is a "rolling" exchange which can happen anywhere along this road for 0.9 miles. We prefer you exchange closer to Tahoe Keys Blvd.
 - You must exchange before you get to Tahoe Keys Blvd. Please be quiet in this neighborhood.

LEG 17
3.3 miles
Easy

- a...run due south on Tahoe Keys Blvd, running AGAINST traffic, for about 0.9 miles
- b...at Lake Tahoe Blvd. (which also is Hwy. 50), CAREFULLY cross the street when the light is GREEN, then turn left on the other side and head due east running WITH traffic for 1.5 miles.
- c...Turn RIGHT on Al Tahoe Blvd. (at the Denny's) and run on the sidewalk which becomes a paved pedestrian path for about 0.7, passing straight thru the intersection with College Drive and Johnson Road
- d...Turn RIGHT on East College Drive and run on the pedestrian path that has street lights for 0.2 miles to the exchange on the Lake Tahoe Community College campus

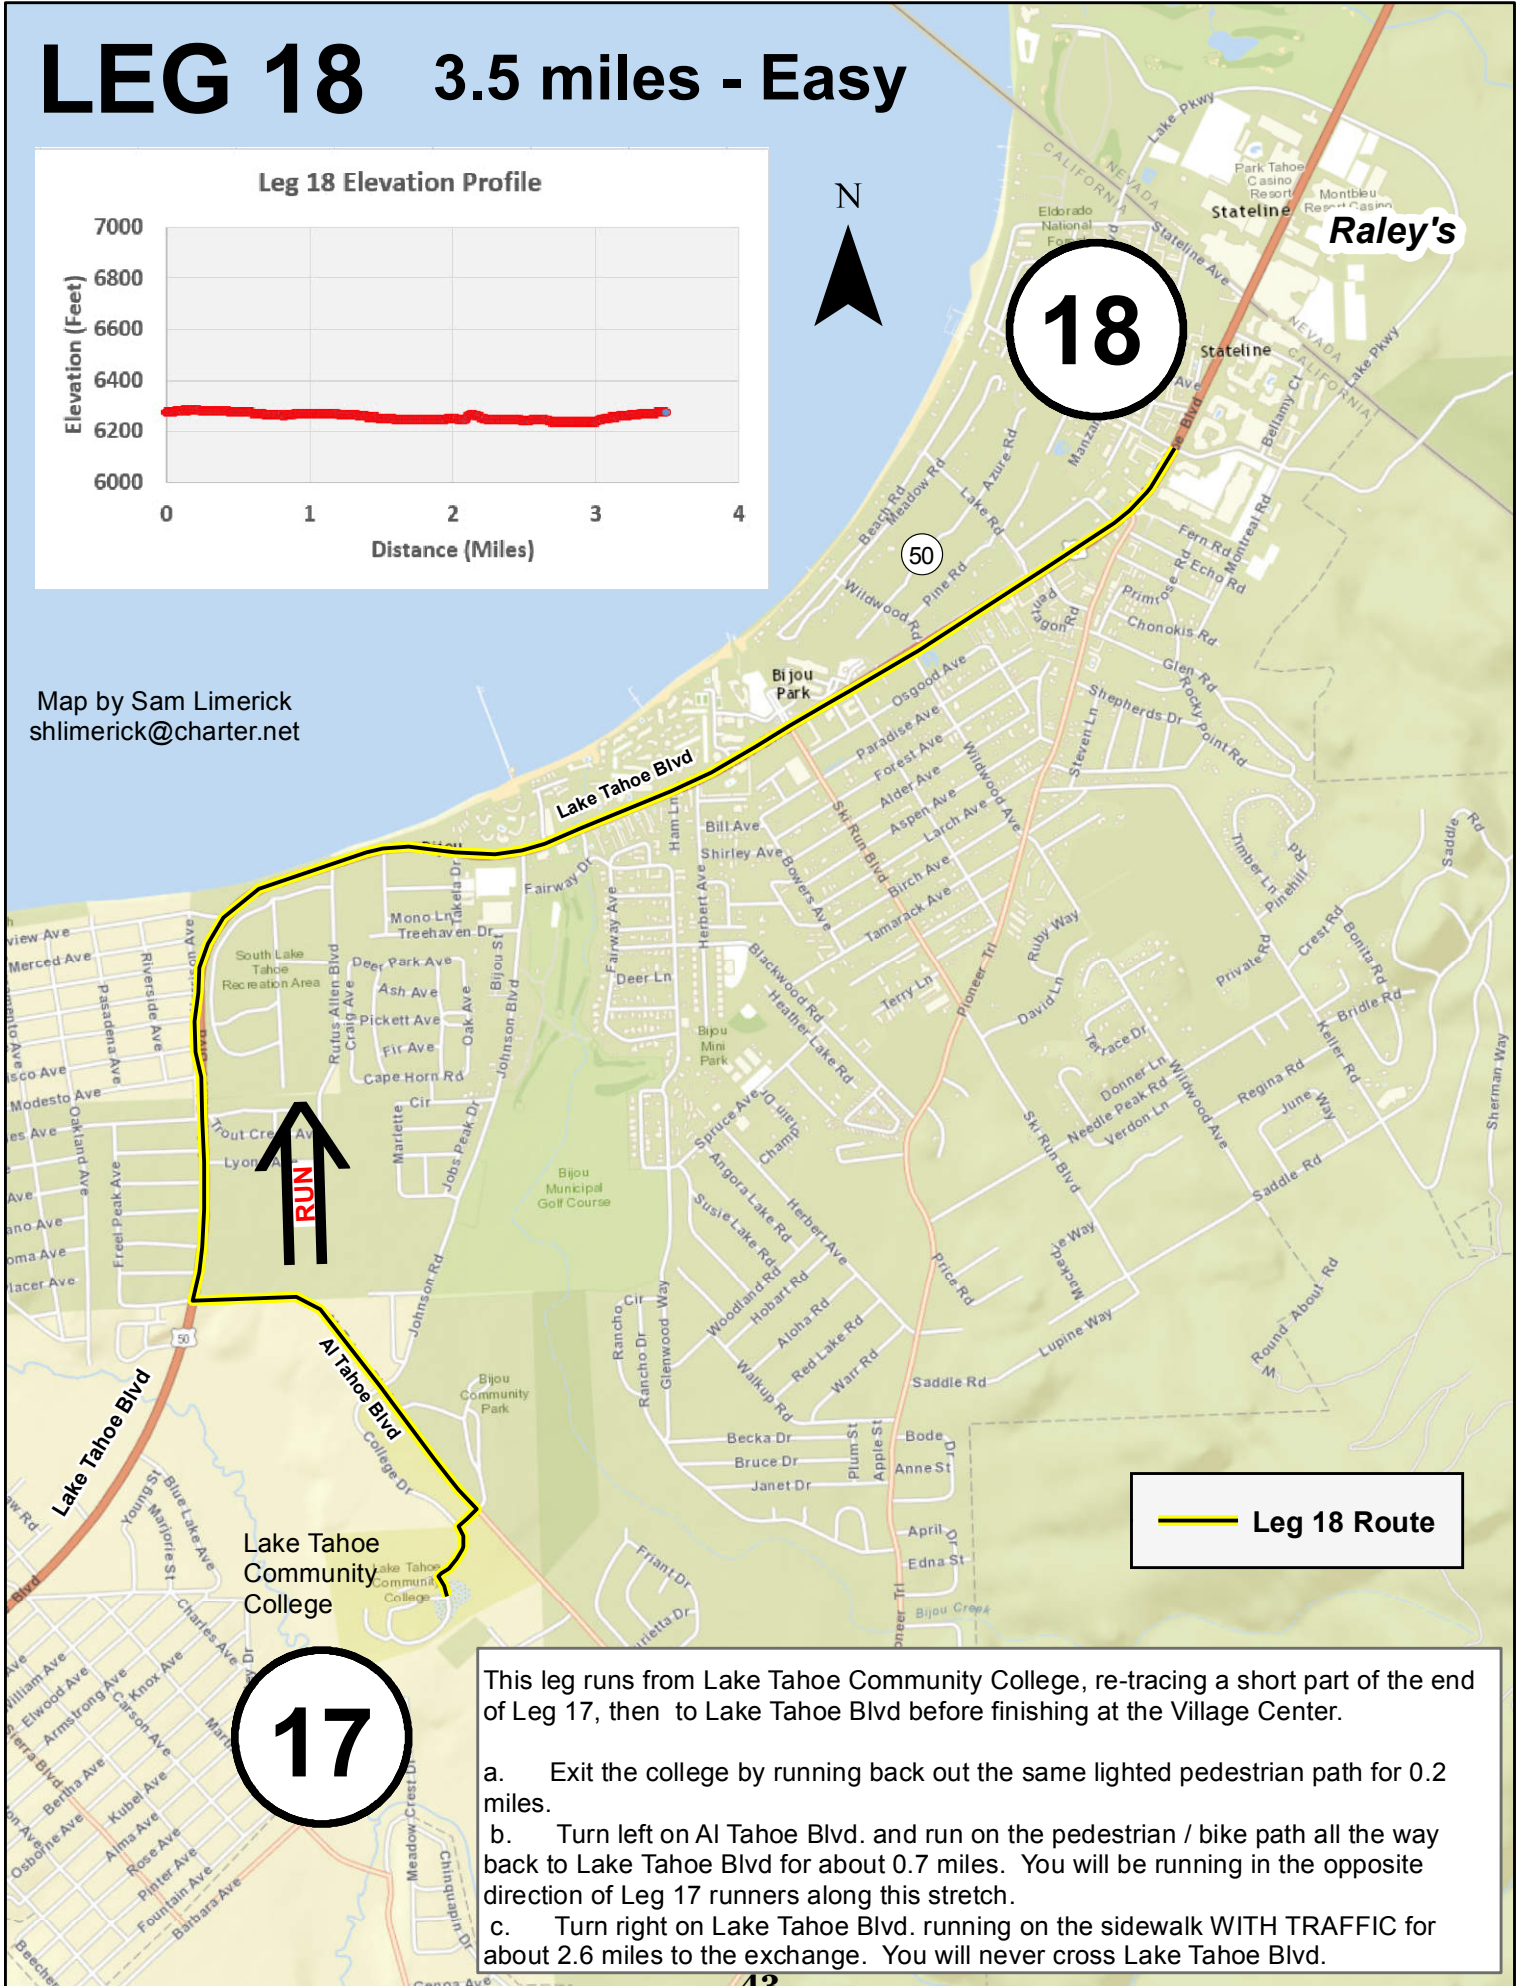

LEG 18 3.5 miles - Easy

This leg passes through Gold Hill and reaches Virginia City

- Continue along State Route 342 through Gold Hill, now running WITH traffic
- Proceed on State Route 341 into Virginia City and down the main street, called C Street, running WITH traffic and BEING ALERT for moving vehicles
- Stop at the exchange point just short of the Bucket of Blood Saloon, across from the Delta Saloon

Vans: Upon arriving in Virginia City, you will be on Nevada State Route 341 aka C Street, the main road through town. We close this street near the exchange, so before the closure turn right on Taylor, then left on E Street and park in the parking lots along E Street just beyond Union. The exchange is a short walk 2 blocks up the hill from there. To avoid a traffic jam at Taylor, turn right at the SR 341-342 Junction just as you enter town. Take the first left onto D Street, head due north for a few blocks, turn right on Taylor, then left on E and proceed to the parking lots beyond Union.

LEG 32

3.3 miles - Most Difficult

This leg crosses Geiger Summit and continues toward Reno.

a..Return to and continue along State Route 341, running **WITH** traffic and running **CAUTIOUSLY**, running about 0.2 past the intersection with Cartwright Road to the new exchange on the right.

Vans: park beyond the exchange in the designated parking lot.
DO NOT PARK along or across the highway or on Cartwright Road.

— Leg 32 Route

Leg 32 Elevation Profile

N

31

33

LEG 33 6.6 miles - More Challenging

This leg descends the original Geiger Grade before ending in south Reno.

- Run back 0.2 to the intersection with Cartwright Road, then CAREFULLY cross the highway.
- Run due west on the dirt portion of Toll Road (actually Trojan Rd. on the map) across the flat meadow, then follow the road down the canyon for 3.7 miles. Most of the dirt road is newly graded and gently sloped. There are a couple steep and rock sections, so be careful descending those portions. REMSA will be at the bottom if you need a little first aid.
- As you reach the bottom and exit the canyon, continue due west on the single lane paved road for 0.5 miles.
- Continue on the two laned paved portion of Toll Road for 1.9 miles. There is a paved pedestrian path on the left side of the road.
- At the intersection with State Route 341 there is a traffic light and crosswalk. Cross there when the light is green.
- Continue straight through the intersection onto Equestrian Road for 0.3 miles.
- Veer right and merge onto Western Skies Drive and continue on the road for 0.4 miles.
- Stop at the exchange at the intersection of Western Skies Drive and Reading not far from Brown Elementary School.

— Leg 33 Route

Vans: Drive down the Geiger Grade Highway aka Nevada State Route 341 for 6.5 miles. Turn left on Kivett and drive 0.7 miles. You may turn left on Toll Road and proceed almost 1 mile to a dirt pullout area on the right. That is the furthest point you may drive on Toll Road to wait for your runner.

32

Map by Sam Limerick
shlimerick@charter.net

34

LEG 34

5.2 miles - Moderate

This leg zigs and zags across south Reno.

- Back track on Western Skies Drive 0.1 mi to the entrance to the pedestrian pathway on the north side of the street.
- Run due north on the pedestrian path about 0.9 mi to Rio Wrangler Parkway.
- Right on Rio Wrangler for 1.6 mi passing Damonte Ranch High School along the way.
- Left on Steamboat Parkway for about 0.1 mi.
- Right on Carat for about 1.8 mi.
- Right on Double Diamond Parkway running WITH traffic for 0.7 mi to the exchange in front of Double Diamond Athletic Club.

VANS: Drive back on Western Skies Drive, veer right on Equestrian, then turn right on Curti Ranch Rd. Then turn right on Veterans Pkwy., then turn right on Rio Wrangler Pkwy., then you will connect with your runner along that street.

Leg 34 Elevation Profile

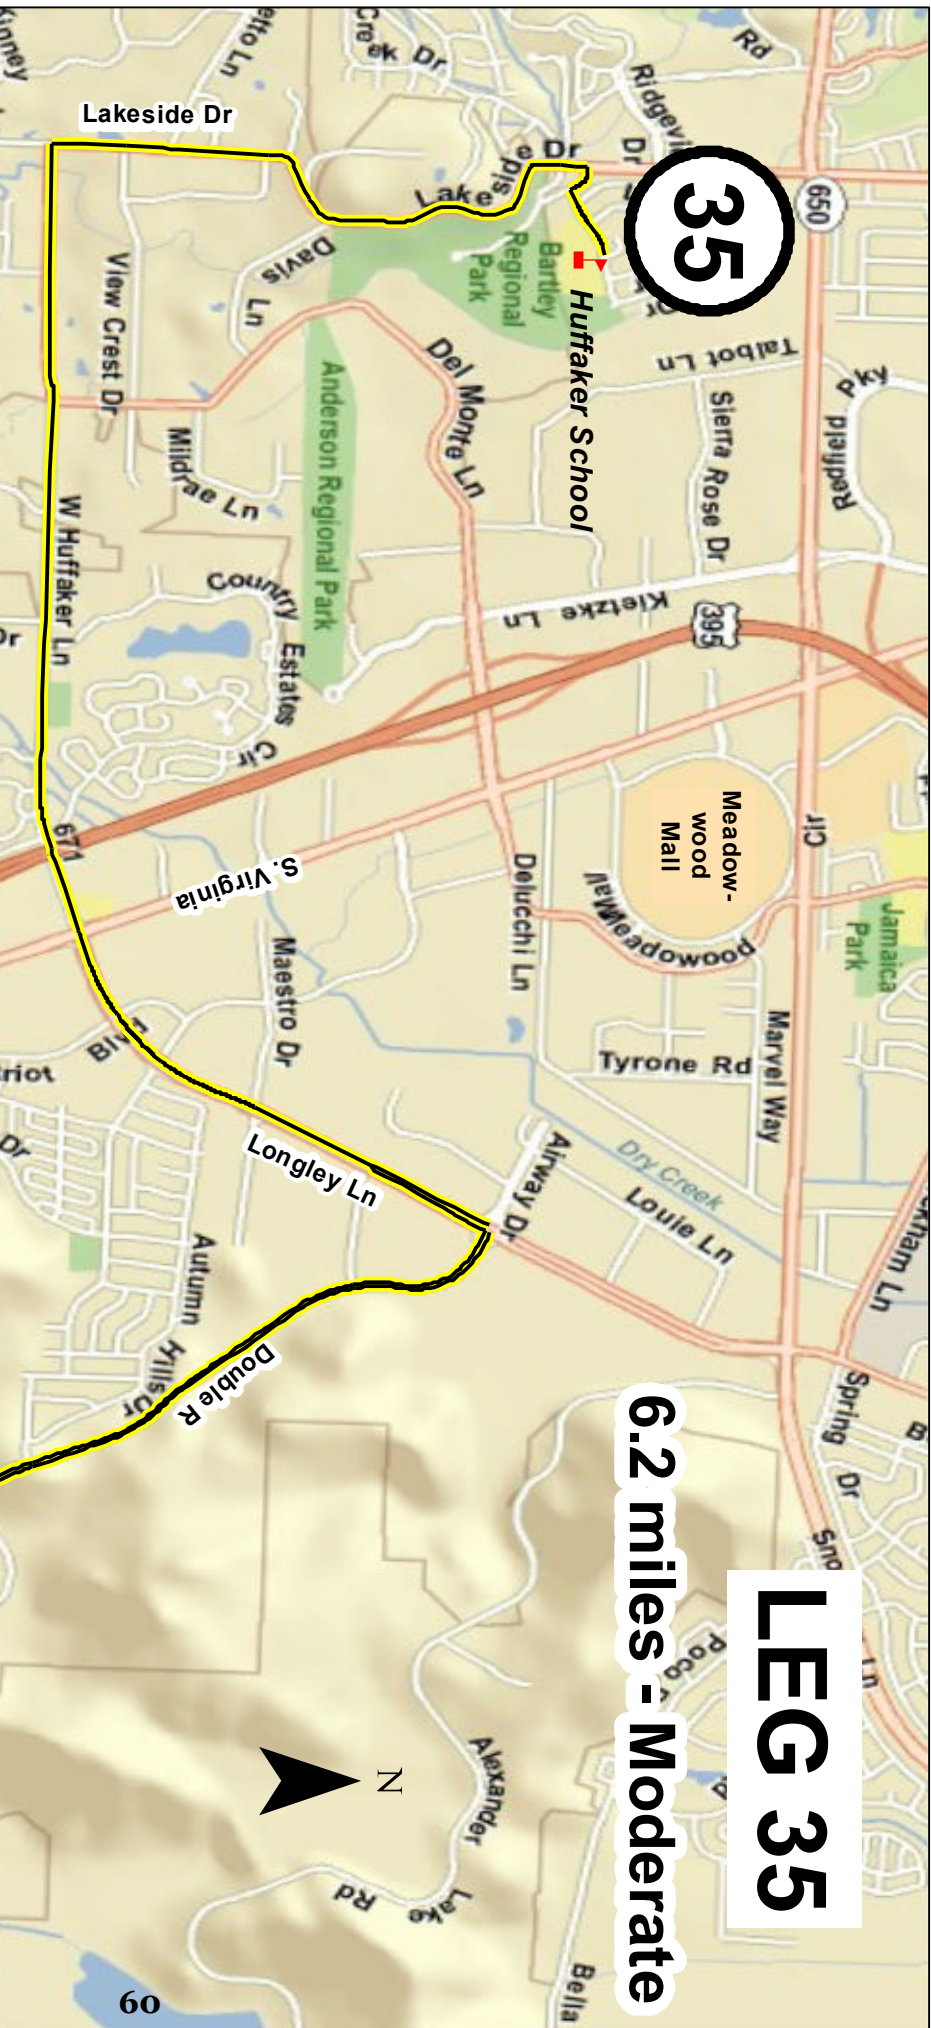

33

— Leg 34 Route

LEG 35

6.2 miles - Moderate

This leg travels through South Reno.

- Continue north on Double Diamond Parkway running WITH traffic for 0.8 miles
- Right on Double R Blvd., crossing the intersection there and running AGAINST traffic for 1.4 mi
- Left on Longley and run AGAINST traffic for about 1.0 mi to South Virginia Street
- At that busy intersection, CAREFULLY CROSS; Longley becomes Huffaker Lane
- Continue straight running due west on Huffaker for about 1.5 mi to the end
- Right on Lakeside, crossing the intersection there and running AGAINST traffic up, around, and down Windy Hill for about 1.3 mi
- Right on Bartley Ranch Road, CAREFULLY CROSSING Lakeside using the crosswalk and running about 0.1 mi
- Left on Wheatland for about 0.1 mi to the exchange in front of Huffaker Elementary School

FINISH

36

LEG 36

5.4 miles - Moderate

Leg 36 Elevation Profile

This leg travels through Southwest Reno.

- Back track 0.1 mi to Bartley Ranch Road and 0.1 mi to Lakeside
- Right on Lakeside running **WITH** traffic for 0.4 mi to Lakeside and McCarran intersection
- CAREFULLY CROSS** and continue straight on Lakeside running **AGAINST** traffic for 2.3 mi to the end, going through intersection at Moana Lane, past Virginia Lake, and going through intersection at Plumb Lane
- Left on Mt. Rose Street for just over 0.5 mi
- Right on Arlington running **AGAINST** traffic for 1.1 mi, going through intersection at California Street and passing through Wingfield Park and crossing the two bridges over the Truckee River (this is where the relay began)
- Left on First Street
- Veer left on the pathway along the Truckee River for 0.6
- Left on Booth, crossing the bridge over the river
- Immediate right on Idlewild for almost 0.1 mi
- Veer right on the pathway into Idlewild Park and stop at the Finish Line

Driving Instructions For The “Resting Van” aka the Vehicle With The Runners Who Are Not Running That Group of 6 Legs

To reduce the chance of traffic congestion on certain parts of the relay course, the vehicle that is transporting the runners who are sitting out the group of 6 legs and not running them (aka The Resting van as compared to The Running Van, terms we borrow from our friend Jeff Shapiro the race director of The Relay) must follow these driving directions.

Legs 1-6

Van 2 will be the vehicle with runners sitting out these legs. **Do not travel along the relay course through southwest Reno and Verdi and later along Stampede Dam/Meadows Road.** Rather, you should leave the Wingfield Park start area by traveling west on W. First Street. Turn right on Keystone Avenue and travel north to Interstate 80. Enter Interstate 80 westbound toward Sacramento and travel on the freeway 23 miles. Take the Hirschdale Road exit (Exit No. 194). At the stop sign, turn right and drive under the freeway much less than a mile to the Tahoe Forest Church at 10315 Hirschdale Road. Exchange Point No. 6 will be on your left. Pass the exchange and enter the church property where there will be plenty of parking and fun stuff too.

For those of you using a navigational device, the address for the Tahoe Forest Church is 10315 Hirschdale Road, Truckee, California.

Legs 7-12

Van 1 will be the vehicle with resting runners. Head back due north to Interstate 80. Enter Interstate 80 heading west to Truckee and use the freeway to travel west to Truckee just a few miles to the west. To see historic Downtown Truckee, use the Central Truckee exit (Exit No. 186) and turn left on Donner Pass Road. The main commercial district is just a mile or so down the road. Or to head directly to Lake Tahoe, continue on I-80 to the next exit for Highway 89 South and Lake Tahoe (Exit No. 185). Turn left onto Highway 89 and proceed south approximately 13 miles to Tahoe City. As you enter Tahoe City, turn right at the first junction, crossing where the Truckee River originates at Lake Tahoe (that bridge is known as “Fanny Bridge” because of all of the people bending over looking at the fish) and continuing south down Highway 89 about 6 miles to the vehicle exchange point at Homewood Mountain Resort.

The address for Homewood Mountain Resort where Exchange No. 12 is located is 5145 Westlake Blvd (aka CA State Route 89), Homewood, California.

Legs 13-18

Van 2 is the vehicle with resting runners. You have no option here but to travel the relay course south down Highway 89 to get to South Lake Tahoe. At the “Y” intersection with Highway 50 - Lake Tahoe Blvd, turn left and proceed to the Village Center just short of Stateline. That is the location of the mid-point of the relay course and the next vehicle exchange point.

The address of the Starbucks at the Village Center is 4000 Lake Tahoe Blvd., South Lake Tahoe, California.

Please do not drive in excess of the speed limit as you travel south on Highway 89. You will be passing your teammates and other runners. Show them lots of consideration.

Legs 19-24

Van 1 is the vehicle with resting runners for this stretch. **Do not travel on Nevada State Route 207 to get to the Carson Valley.** Rather, you should use Highway 50 to travel to Carson City. When you reach Carson City, turn right on Highway 395. The Carson Valley Center is located just a mile or so up the road on your right and is the next vehicle exchange point.

The address of the Walmart is 3770 South Highway 395, Carson City, Nevada.

Legs 25-30

Van 2 is the vehicle with resting runners. **Do not follow the relay course through Carson City.** Rather, you should drive through Carson City using the two main streets. Drive north on Highway 395 which becomes Carson Street (which is the main north-south thoroughfare and continues to be the same as Highway 395). You will pass the Nevada State Capitol Building on your right. At the intersection with Williams Street (which is the main road that leaves town to the east and is the same as the route of Highway 50 East), turn right and proceed east out of town. Continue to the intersection with Nevada State Route 341 a.k.a. the Comstock Highway. Turn left and drive toward Virginia City. If you get to Dayton, you have gone too far. When you drive up State Route 341 and reach the junction with State Route 342, turn right and use State Route 341. This is the alternative route aka the truck route to Virginia City. **Do not go straight on State Route 342 through Silver City and Gold Hill – this road is narrow and you will cause a traffic jam around Exchange No. 29.** As you enter Virginia City, you may use the main street (C Street) but be ready to turn right and get to E Street and proceed until you reach the designated parking area for the last vehicle exchange point.

The address for the Bucket of Blood Saloon is 1 South C Street, Virginia City, Nevada.

Legs 31-36

Nevada State Route 341 is the one road from Virginia City to Reno, so Van 1 must travel on that road down Geiger Grade. At the bottom, you should continue along that main road to the intersection with Highway 395. **Do not turn right on Western Skies Drive; do not travel along the relay course through South Reno.** Drive on Highway 395 which becomes a freeway and use that route to return to Downtown Reno. Proceed to the interchange with Interstate 80 and take the exit for I-80 westbound toward Sacramento. Once on Interstate 80, travel just a couple miles or so and use the Downtown Reno Virginia Street exit (Exit No. 13). Turn left on Sierra Street and drive past the casinos. Turn right on W. First St. Cross through the Arlington Blvd. intersection, passing Wingfield Park where the relay began. Turn left on Riverside Drive. Turn right on Booth Street, crossing the river. Turn right on Idlewild Drive. Turn right into Idlewild Park where the finish line and post-relay festival are located. Park in the designated parking area.

Use 1000 Whitmore Lane, Reno, Nevada, the address of the California Building in the park, for your GPS unit.

Staying on the Course

We will post directional signs and/or use arrows on the roadway to guide you through parts of the course where it may be easy to get off track. A nice feature of this course is that most of the legs are straightaways down the main road. We will not, however, be able to put a sign at every turn of the 178 mile course. And you may not see it anyway, due to traffic or lighting conditions or your lightning quick running speed. So please study the maps before you run each leg. And have your van mates be parked near each turn to make sure you do not get off course.

Here are some lessons learned from prior RTOs:

- Leg 2: 1) In Mogul stay on the frontage road parallel to the freeway. DO NOT TURN RIGHT into the residential neighborhoods. You'll just run more miles. And make your teammates mad for the slower-than-necessary start. Plus this is where the recent swarm of earthquakes has been. More reason to say on course and get through here quickly.
- 2) TURN LEFT onto the Tahoe-Pyramid Bikeway path that is parallel to the freeway. This takes you directly to Verdi and the end of this leg. Failing to turn off onto the path leads to running more miles. And teammates who are more angry.
- Leg 4 When you reach Summit 1 aka the False Summit and you come to the junction there, VEER LEFT. There is a big sign that says left to Stampede Reservoir and right to a bunch of other nice places but none that you want to visit during the RTO! DO NOT veer right!
- Leg 7 Once you cross the Boca Dam, just run straight. DO NOT ever take a right. There will be two junctions where there are road signs. Both times take the option TO THE LEFT. The road signs state that the left turns are to Prosser Reservoir and CA State Route 89. That is exactly where you should be heading to get to the end of Leg 7.
- Leg 8 There is one turn that many runners always miss. It is the right turn off of Pioneer Trail onto the pedestrian pathway. We put a sign there to help you find this turn onto the path. This year we might add balloons and a person dressed in a gorilla suit but don't count on that. If you reach the Full Belly Deli at 10825 Pioneer Trail, you have run too far and missed the turn!
- Leg 9 This roundabout on Donner Pass Road is one of the trickiest parts of the course every year. Runners and vans need to get off of Donner Pass Road and turn left onto the street called McIver Crossing, which heads down the hill and under the railroad tracks to connect to West River Street. If you continue straight on Donner Pass Road, through the roundabout, you will have gone the wrong way, way too far west.
- Runners need to veer right onto the pedestrian trail that leaves McIver Crossing and heads up and across the Sierra College Truckee campus.
- On the west side of Truckee, runners will reach Highway 89 and need to turn left. Vans will use West River Street to get to Highway 89 and then turn left. No one should turn right on Highway 89.

- Leg 11 At the end of this leg as the runner approaches Tahoe City, the runner takes a hard right onto the pathway bridge over the Truckee River. There should be a sign and a volunteer there to direct you. But regardless be ready to make the hard right turn crossing the river on the footbridge. The exchange is on the other side of the bridge on the pathway area adjacent to the parking lot for the Truckee River Pathway. The runner **SHOULD NOT** continue along north side of the bridge and cross the river on Fanny Bridge.
- Van 2 drivers: At the end of this leg as you enter Tahoe City, continue to the first lighted intersection. Turn right following CA State Route 89 south toward Homewood. You will cross the Truckee River on what we locals call “Fanny Bridge.” Drive past the Bridgetender restaurant on your right. Continue a few hundred yards and turn right into the Truckee River Bike Path parking lot. The exchange is at the north end of the parking lot.
- Leg 16 Leg 16 turns off Highway 89 before you get to the huge intersection with the traffic light known as the “Y.” So if you reach this intersection, you have gone too far. Go back and turn toward the Lake and Tahoe Keys!
- Leg 22 This leg starts at the intersection at the bottom of Kingsbury Grade. The runner has 3 choices. 2 are wrong. Please head north on Foothill Road, toward Genoa. In other words, **TURN LEFT** here. **DO NOT** go straight or right.
- Wrong Way Joe Dito once turned right and was lost for a long time. Do not repeat that history.
- Leg 24 At Highway 395 just south of Carson City, turn left. **DO NOT TURN RIGHT** and head toward Gardnerville or Minden.
- Leg 28 Two things about Highway 50 other than be careful on this busy road. One, cross this busy road at the start when you first reach it, then turn right on the other side and run against traffic up the hill. This is the only place to cross the road at an intersection. Two, be sure to turn left off Highway 50 onto Affonso Drive. If you reach the junction with Highway 341, you have gone too far. If you pass that and get to Dayton, you have **REALLY** gone too far. Ask Paul Cooney about that. Adds a lot of miles and pisses off / scares your teammates.

NOTE: Camp Richardson at South Lake Tahoe is not part of the relay

In 2006 we had runners go into Camp Richardson and demand to use the showers. We do not have an arrangement with Camp Richardson. So unless you have a room or campsite there, please do not stop there. Thank you.

Relay Basic Guidelines

The course is divided into 36 legs. At the end of each leg is a runner exchange area. That is where one runner ends and the next runner begins.

Runners will carry a team slap band and pass that to each other at the exchange points. The slap band takes the place of a baton.

Teams with 12 runners run in order through their line-up one through 12 to complete the relay course. After running the first 12 legs, the runners repeat this process and run the second and third groups of 12 legs. Each runner should run 3 legs of the 36 leg course.

Let's focus on the vehicles for a moment. Each team has two vehicles, with 6 runners in each vehicle. The first vehicle with 6 runners will cover the first 6 legs. The second vehicle with the other 6 runners will cover the next 6 legs. The vehicles will leapfrog along the course alternating covering each group of 6 legs until the team finishes the course. Accordingly, the runners in the first team vehicle will cover Legs 1-6, 13-18, and 25-30. Let's call that vehicle "Van 1." The runners in the second team vehicle will cover Legs 7-12, 19-24, and 31-36. Let's call that vehicle "Van 2."

At the end of each group of 6 legs is a vehicle exchange area. That is where one group of 6 runners completes running the prior 6 legs and the team's other runners begin to run the next group of 6 legs.

Part of the challenge of a relay like this one is to estimate how long it will take each runner to run his or her leg. Teams need to be at the next runner exchange point when the runner arrives there. In addition, the one team vehicle needs to be at the vehicle exchange point when the other team vehicle arrives there that is carrying the runners who ran the prior six legs.

Each team must provide its own supplies to support its runners. Plan to leave room in your team vehicles for these supplies. Do not plan on any aid stations along the course.

Tips To Having A Great Time During The Relay

Designate a captain for your team who is a take charge personality and enjoys working with details.

Train for this event. Be ready to go physically and mentally.

Be very familiar with the parts of the course that you are running.

To make sure you stay on course, have your team van and van mates hang around in a safe parking location near every turn so they can see that the runner made the correct turn. In addition, while running your leg, carry a copy of the map of your leg and your cell phone to give you an extra sense of security.

Always be cautious and alert and safe. Wear your safety vest all the time.

When running your legs, be properly hydrated. Carry your own water or sports drink. Don't rely on your team to hydrate you as you run your leg. It may be too late.

The running van should closely monitor the runners on Legs 34, 35 and 36. It can be VERY WARM on Saturday when the runners are on these last 3 legs. Stay close enough to them to make sure the runner has enough water for the entirety of these legs.

Stretch after you run each of your legs.

Don't run a set of legs that are rated "Most Difficult" or "More Challenging" unless you are a more experienced or talented runner. Don't be assigned to a slot in the runner line-up that you don't think you can handle.

The runners who are assigned to run the steeper climbs, especially the uphill parts of the “Most Difficult” legs, should feel free to “power walk” those parts. That is, they should get in a crouch position and take long strides to get up those hills. This is a tactic used by ultra runners who face steep climbs during their ultra runs. Trying to run the climbs will only deplete you of energy. Don’t let your pride get in the way of your completing the leg in the most effective manner.

Don’t run Leg 4 unless you are a strong runner. Don’t run Leg 33 unless you like descending steep dirt roads with loose rocks intermittently thrown in.

Runners in Van 2 may want to reserve a room(s) in South Lake Tahoe for Friday night. After finishing Legs 7-12, the runners in Van 2 should drive straight to South Lake Tahoe, check into their room(s), and get a quick nap and/or a shower. NOTE: The faster your team runs, the less time you will have to pull this off. You may have no option but to “rough it.”

The runners in Van 1 may want to reserve a room(s) in Carson City for Friday night. After completing Legs 13-18, the runners in Van 1 should drive straight to Carson City, check into their room(s), and get a quick nap and/or a shower. NOTE: The faster your team runs, the less time you will have to pull this off. You may have no option but to “rough it.”

Reno-Tahoe Odyssey and Capital Odyssey Relay runners may want to get a room at the Silverland Hotel in Virginia City to use for team naps and showers.

Get to the runner and van exchange points far enough in advance of the approaching runner so that you can park the team vehicle in a safe manner and let the next runner have a time to get ready to go.

When your running van finishes your set of legs, **always drive forward** along the course, ideally all the way to a location in close proximity to the next van exchange point. Do not drive backwards on the course. Do not hang out for a long time at the exchange where you finished your legs. Driving backwards or hanging out too long at that location will make it more difficult for your van to get to the next van exchange point where your van will be running legs again.

Carry extra running gear such as socks and shirts if you tend to sweat a lot.

Get to know the other teams. Your experience will be more rewarding if you create friendships with the other teams and cheer on each other as you travel the course.

Enjoy the time with your teammates.

Appreciate the fact that you are able to participate in this event. Look out at the vistas. Suck up the fresh air. Gaze up at the stars. Have a blast!

Finish as a team. There will be enough time for both Van 1 and Van 2 to drive to the finish area and park. The rest of your team should be standing at the start of Idlewild Park ready to escort the runner in the No. 12 spot to the finish line.

Smile for the team photo after your team has completed the relay.

Last but not least: This is a 178 mile adventure relay run that takes 24 hours give or take a few hours depending on your team. This is not a quick and easy 5K in a park but you should have fun achieving your goals and enjoying the journey along with thousands of your other “friends” there.

Checklist

GENERAL

- 12 runners/2 vehicles or 6 runners/1 vehicle

SAFETY GEAR

- minimum of one reflective vest, one working headlamp and flashing lights for runner's back per vehicle; best if each runner has their own safety gear
- extra batteries for the safety gear
- one "RUNNER ON ROAD" safety sign per vehicle provided by the RTO; tape to put the sign on the back of the van
- RTO Runners Handbook for each van (please read ahead of time; it also contains leg maps)

VAN GEAR (coordinate with your captain/van-mates)

- RTO Runners Handbook for each van (please read ahead of time; it also contains leg maps). YES, THIS IS LISTED TWICE.
- list of cell phone numbers of each team member, one per vehicle plus emergency contact information
- watch or some way to keep track of team's time on RTO time log (Runners Handbook)
- clipboard for RTO time log
- pens to track times on RTO time log
- basic first aid kit
- garbage bags (for your van trash)
- cooler/ice
- small towels/washcloths and sponges to wet down to cool off hot runners (pre-frozen washcloths are awesome!)
- toilet paper
- Kleenex
- baby wipes
- glow sticks
- squirt guns
- cow bells

FOOD (some teams coordinate with their van-mates)

- food supplies such as water, sports drinks, chocolate milk, fruit, bagels, peanut butter, jerky, string cheese and energy bars
- refillable water bottle

CLOTHING

- running kit for each of your running legs (recommend putting each leg in a large ziplock bag)
 - running shoes (maybe 2 pairs depending on weather)
 - shorts, capris, tights
 - tanks, short-sleeves, long-sleeves
 - sports bras
 - socks
 - running hat/visor
 - bandana
- comfy, dry clothes for downtime (socks, slides/flipflops, hoodie, fleece jacket)
- running watch/GPS
- sunglasses

ACCESSORIES

- SEE SAFETY GEAR (take extra)
- cell phone and charger (bring extra charging cords)
- safety pins for running bibs
- running water bottle depending on which leg(s) you are running
- pillows and blankets/sleeping bag (depends on your plans for van “downtime”)
- cash/credit card
- spirit of adventure
- good attitude

TOILETRIES

- sunscreen
- deodorant
- aspirin/ibuprofen
- tooth-brush and tooth-paste
- bug spray

- vaseline or something for chafing
- brush, comb, hair ties

Tips for Having a Successful RTO Ultra

Heid and Pete Parker, both Circle of Famers and veteran RTO'ers kindly updated this list and provided their own experience to EJ Maldonado another Circle of Famer, veteran RTO'er and long-distance runner about how to get ready for and how to run the RTO with a six runner ultra team.

Most important tip: Don't take yourself so seriously... It's the RTO! It's supposed to be fun.

Next important tip: Read all the RTO emails and this packing checklist

<https://renotahoeodyssey.com/planning/helpful-information/>

TRAINING

1. Plan at least one double day run and one 8 – 10 mile run per week during your training. The double day run can be splitting up a 5 – 6 mile run into 3 miles in the morning and 2 – 3 miles after work...or 3 miles and 3 miles. This gets your body used to running at different times of the day and multiple times per day. The 8 – 10 mile run is just good to get time on the road/trail at a slower pace. No need to break speed records. *[Depending on when you are reading this, following a half-marathon training plan works well for an Ultra RTO.]*
2. If you've never run in the middle of night before, plan a late-night run with a buddy or members of your team. Even better if you can run one of the night legs (Legs 12-24ish)
3. Participate in the RTO scheduled training runs.
4. Don't just focus on training for your legs; you might have to take over for another runner so be familiar with the entire course.
5. Run Trails...and HILLS!! Even if you aren't accustomed to trail running, turn at least one of your runs to the trail per week because trails are easier on the limbs, all about climbing, and more Zen. If you're feeling frisky, do some hill repeats every few weeks. When you're killin' Kingsbury or Dog Valley, you'll be glad you did!

FOOD

6. Pack real food since it's harder to stop for food along the way during an Ultra. There may be times where your stomach is blah, but you need to eat a balance of proteins, carbs, and fats to put back what you burn, refuel, and recover all at the same time. Best to find out what you can stomach during your training period and then do at the race. Lunchmeat, sliced cheese, and mini bagels are great for quick sandwiches. Pre-made Kodiak Protein Pancakes are also easy to pack and eat.
7. Carb heavy snack foods. These are important too for the times you need something in the belly. Lenny and Larry's Complete Cookies, your favorite nutrition bar, Justin's peanut butter packets, peanut butter filled pretzels, mini Snickers, trail mix, Greenlee's Cinnamon Bread, Vega Recovery Drink, beef jerky, string cheese, etc.
8. Coffee or Tea. Whether it's straight coffee or one with frills, have some the morning of the race...it's also good to have some double shots on ice ready to go too!
 Pro tip: Place a mobile order at the Carson City Starbucks at Exchange 26 (North Carson Crossing, 3325 Retail Dr, Carson City, NV 89706) They open at 5 am.
9. Tums, Alka Seltzer, carbonated drinks. These go without saying... tummy troubleshooter!
10. Bring extra water for your team and to share with other runners, as it can be especially hot on legs 3 and 36.

IN THE VAN

11. Rent a 12-person passenger van (Like a Ford Sprinter). Bring along a driver to help with most of the driving. By the end, six tired runners can make for challenging navigation. Cut up a pool noodle to cover up the seat belt buckles, your hips & knees will thank you.
12. Sleep. Take advantage of the fact that you are all in one van, as there is no need to coordinate times to be at exchanges and such. We recommend at least two naps and bring a small pillow/blanket.
13. Bring a variety of clothes/multiple changes and pack them in gallon-sized Ziploc bags. Bring an extra pair of running shoes. Clean and fresh running clothes are a breath of fresh air...and sweaty clothes can be put back in the Ziploc. Bring comfy clothes, socks, and comfy slip-on shoes for when you aren't running. Be prepared for hot as hell and cold as ice!
14. Support your runner. Cheer for them, cowbell often, and make team tunnels. Cheer for other runners too.
15. Pack extra toilet paper, baby wipes, hand sanitizer, frozen washcloths. Running as an Ultra means less time at the exchange points.
16. Mix up the music. Have a playlist prepared in case you don't like the driver's choice of music!
17. Have fun, decorate the van, blast music (except on Prosser Dam Road and in Genoa), and laugh often!

RUNNING

18. Planning legs - see if there are creative ways to split up the legs that point to a runner's strengths. Some teams go two legs at a time. Some teams alternate legs one after the other. Some teams match runners (1 + 7, 2 + 8, etc.) Remember, you can split up a leg between two or more runners if needed.
19. Mints! Pop one of these in your mouth at the start of each leg, and you feel like you're in one of those minty commercials. Clean mouth, clear mind!
20. Take care of your skin! Sunscreen and some type of anti-chafing cream for all the nooks, crannies, creases, folds, and chafing areas. We prefer Zealios Betwixt and Reef Safe Sunscreen.
21. Don't forget it's a team thing... Fatigue, injuries, grumpiness, hunger, delirium... It's all part of the ultra-experience! Make sure to be there to pick each other up, lighten the mood, and cheer on! If a teammate is injured or fatigue starts setting in, have a plan how to split up legs.
22. Don't stress about pace, overall times, possibly disappointing your teammates, disappointing yourself, or any of that other stuff that goes with stressing yourself out.
23. Breathe, have fun, and run!

Time Adjustments and Penalties

Teams that are too far ahead of or fall too far behind may be disqualified or asked to stop.

Teams may be asked to stop at an exchange point for a period of time if they are ahead of their projected times or for other reasons. If you are asked to stop, please track your stopped time from the time you get to the exchange point until the time you are authorized to continue. Confirm this stop time with relay officials and the exchange point volunteers at that exchange point where you stopped. We will subtract the stop time to determine your total time.

If you are running fast or ahead of our volunteers, expect to be stopped and held for a TBD period of time at Exchange No. 18 and/or No. 24. We'll hold all teams at No. 18 until 10:30 pm. We'll hold all teams at No. 24 until 2:30 a.m. If you think you will get to either of these locations before these points in time, please contact Matt Balzer about adjusting your start time.

Team that fall behind their projected times or who fall outside of the time windows for the exchange points when volunteers are assigned to work at those locations may be asked to drive one or more legs to catch up with other teams in the field. We will determine your average minute per mile pace based on the legs you completed and then add that pace per mile to those legs that you drive instead of run. We will determine your total time using this method.

Relay officials are the final authority to determine the winners of the divisions. Their decision stands.

Teams that are disqualified may not receive their medals at the finish line and they may not be listed in the official results. Relay officials reserve the right to impose other penalties.

Rules for Competitive Teams Trying to Win Their Division Or Maybe The Whole RTO

Please note that this event is not set up to be a true competition. We cannot guarantee uniformity in all the conditions that each team will encounter. Teams run at different times of the day and night. Teams encounter different challenges, such as different weather conditions at different parts of the course, and different length stops for trains and/or long red lights and/or unexpected wildlife encounters. Some teams may not even run the exact same course, but they may run a slightly different course. They run on one side of the street instead of the other side. They run extra miles when a runner gets lost. They may run fewer miles when a runner cuts a corner or block or mile accidentally or maybe even on purpose. We cannot police every mile of a 178 mile course to make sure everyone runs the exact same course.

To try to bring some order to the competition, competitive teams must adhere to the following rules.

Teams must run in the order of their line-up. For example, for a 12 person team, they will run through the line-up in order 3 times: 1 through 12, then 1 through 12, then 1 through 12.

If a team has only 11 runners, then they must run through their order 3 times. The first three runners in the line-up will need to run the last 3 legs in the same order. In other words, runner no. 1 will run Leg 34, runner no. 2 will run Leg 35, and runner no. 3 will run Leg 36.

Teams cannot change or otherwise manipulate the order and still be eligible to claim first place. Once they do that, they are no longer eligible to win.

There is one exception: if there is a legitimate injury to one runner. If someone either is unable to begin his or her leg or is unable to complete his or her leg, the team may select a substitute runner from the roster to run that leg and any other legs that that runner was supposed to run. The injured runner is disqualified from running in the rest of the event. No dropping out, then coming back in. The same teammate cannot substitute more than once. Hence, if 3 legs must be run by substitute runners, 3 different runners must run one leg each.

In addition, 10 minutes will be added for every substitution.

For example, if a runner was injured during his or her first leg (but he or she completed the leg) and was unable to run the next two, the team would be penalized 20 minutes. If a runner was injured during his or her first leg and was unable to run the entirety of the first leg and the next two, the team would be penalized 30 minutes.

If the order is changed a second time because of an injury to a second runner or for some other reason, the team is no longer eligible to win.

At the time of the injury, please text Matt Balzer at 775-771-1369 to report the injury and the substitution plan.

Historical Points of Interest

Many interesting historic events have occurred along the RTO course (not talking about RTO history, that is a long separate chronicle). Eric, founder of the RTO is a history buff and wanted to make sure you knew about the following:

Leg 1

- This leg starts along and follows the Truckee River. The Washoe Indians inhabited this region for generations and lived in part on the large native cutthroat trout that they fished from this river and the Nevada desert lake where the river ends, Pyramid Lake. When Western Explorer John Fremont first saw this river in 1844, he named it the “Salmon Trout River” because the large cutthroat trout reminded him of the salmon in the Columbia River. Grateful pioneers renamed the river after a friendly Paiute Indian chief known as Truckee who guided them to this river after crossing the long, dry Nevada desert and who guided them safely over the nearby Sierra Nevada mountain range.
- The historic California Building stands in Idlewild Park. This building was built in 1927. The California Legislature funded this building to house exhibits intended to lure tourists westward during the Reno Transcontinental Highway Exposition. This was a celebration of the transcontinental Lincoln and Victory highways across America.
- This leg follows parts of the Truckee River route of the California Emigrant Trail. The California Emigrant Trail was used by over 200,000 westward bound emigrants and gold seekers heading to the rich farmlands and gold fields of California in the 1840’s and 1850’s. This was the greatest mass migration in American History. The first emigrants who used this route were the Stephens party. They successfully passed through and over the mountains. The most infamous users of the Truckee River route were the Donner party of 1846. 40 of the 87 party members died of starvation-related causes when they were trapped at Donner Lake by heavy snows during the winter.

Leg 2

- This leg continues along the Truckee River route of the California Emigrant Trail. There is a trail marker at the eastern end of Mayberry Park just off the pathway.
- This leg also crosses and travels next to the Union Pacific Railroad tracks, which are set in the path of where the original transcontinental railroad was built in the late 1860’s. The “Big Four” of Leland Stanford, Mark Hopkins, Collis Huntington and Charles Crocker played major roles in the building of that railroad. So did Theodore Judah, who does not get as much credit for the monumental accomplishment of building that railroad. They all passed through here back at that time.
- This leg travel along the path of the Lincoln Highway. This road was America’s first transcontinental highway, conceived in 1913. It later was called U.S. Highway 40, and after that was replaced by the current day Interstate 80. The old adage of “if it’s not broken, don’t fix it” applied here. This route proved to be a direct way to cross the country for the pioneers using wagons. The first transcontinental railroad followed suit. So when it came time to build the first road across America for automobiles, the same route was chosen again. All came right through here, within yards of each other and the Truckee River.

Leg 3

- This leg continues along the Truckee River route of the California Emigrant Trail.
- Where it crosses the Truckee River near the Verdi Elementary School, the Crystal Peak toll bridge was subsequently located there. The old steel bridge that we use was part of the Lincoln Highway.

- Just south of the Verdi Elementary School Bridge Street crosses the railroad tracks. Not far from here is where the first train robbery in the West occurred in 1870.

Leg 4

- This leg re-crosses the Truckee River where the Crystal Peak toll bridge was located and passes by the Crystal Peak cemetery.
- It continues along the Truckee River route of the California Emigrant Trail. There are trail markers along Henness Pass Road. These were the last miles traveled by some members of the Donner Party.
- The Dog Valley and Henness Pass Roads were part of the Lincoln Highway network of roads. The Lincoln Highway did not go up the Truckee River Canyon; rather it went this way!
- It is a shame only one runner per team gets to enjoy this very historic route.

Leg 7

- This leg passes by Boca Reservoir and crosses the Boca dam. Near this location there existed a thriving town in the late 1800's called Boca. It began as a work camp for the construction of the transcontinental railroad. Due to the cold temperatures, Boca was a natural place for the commercial ice cutting trade. In those days, there was a great demand for clear, cold mountain ice. Many ice companies operated in this area and produced ice that was used to ship fresh California produce around in the country. There also was a brewery here that made Boca Beer, one of the most popular beers in the U.S. in the 1880's and served at the World's Fair in Paris in 1883.
- The California Emigrant Trail passed from north to south where Prosser Reservoir now is located.

Legs 8-9

- The California Emigrant Trail passed very near to where Prosser Dam Road now is located.
- These legs pass through historic Truckee, California. This town was founded in approximately 1866 and known as Pollard's Station. It became a boom town in the late 1860's due to the construction of the transcontinental railroad. Many Chinese laborers were used to build the railroad, leading to what was then the second largest Chinatown on the Pacific Coast. There were many mills nearby that harvested timber for trestles, ties, and fuel for wood burning locomotives, as well as for the mine shafts in the silver mines in Virginia City and the flumes that transported water around the area. In 1868 it was renamed for Paiute Indian Chief Truckee. Nearby at Donner Lake is a museum that tells the story of the Donner Party and other emigrants who passed through here on their way across the Sierra Nevada.
- Leg 9 uses the Donner Pass Road which was part of the Lincoln Highway and then US 40. At this point you will be running long the railroad tracks where the transcontinental railroad was built.

Leg 10

- Squaw Valley Ski Resort hosted the 1960 Winter Olympic Games. That was the first Winter Olympics when the U.S. hockey team beat the Soviets.

Leg 11

- This leg travels along the Truckee River Bike Path, which traces the route of the narrow gauge railway from Truckee to Tahoe City. San Francisco's elite took the one hour train ride along this route as part of their journey to Lake Tahoe between the 1880's and 1920's. The railway ended on the huge Tahoe Tavern pier in Tahoe City. From there the 169 foot Steamer Tahoe transported guests to Lake Tahoe's posh resorts

around the lake, including McKinney's (now Chamber's Landing), Baldwin's Tallac House and the Glenbrook Inn.

Legs 12-18

- In 1844 John Fremont was the first white man to discover Lake Tahoe. In 1861 Mark Twain, then a newspaperman working in Virginia City, described Lake Tahoe as the "fairest picture the whole earth affords."

Legs 13-16

- These legs pass many estates that are now California state parks, including the Ehrman Mansion built in 1901-1903 and located in Sugar Pine Point State Park and the Vikingsholm castle built in 1929 and located along the shores of Emerald Bay. Also there is the Tallac Historic Site, where you can tour the Baldwin Estate, Pope Estate and Valhalla Estate homes, and historic Camp Richardson.

Leg19

- This leg passes through Stateline, NV. This end of the lake was much quieter until Bill Harrah brought his gaming empire here. This is where a number of casinos are located.
- A different kind of history is made every July at the Edgewood Golf Course which you will run right by. There is where the world's most famous celebrity golf tournament happens. Come watch the stars hit some good golf shots and many bad ones.

Leg 19-21

- The Reno-Tahoe Odyssey is not the first long distance relay to travel through these parts at all hours of the day and night. The Pony Express, a relay of mail by horses and riders that ran day and night, traveled through these parts back in 1860 and 1861. The Pony Express was created in April 1860 to provide the fastest mail delivery between St. Joseph, Missouri and Sacramento, California. The 2000 mile course had 165 stations. New riders took over every 75 to 100 miles. Fresh horses were used every 15 miles. But with the completion of the telegraph in October 1861, the Pony Express became obsolete and was finished.
- These legs climb out of the Lake Tahoe Basin and then descend the famous Kingsbury Grade. The original Kingsbury Grade, which is nearby, was a toll road in 1860 to 1868. This was the main road between Sacramento and Virginia City. The toll for a wagon and 4 horses was \$17.50. In 1863 toll receipts totaled \$190,000. That's a lot of wagons passing through.

Leg 22

- The town of Mottsville existed at the foot of the mountains here. It was one of the first settlements in Nevada. All that remains is a small cemetery east of the road.
- This leg ends in historic Genoa, which is Nevada's first settlement dating back to 1851 (unless you ask someone from Dayton who may claim that it is Nevada's first town). There are a number of museums here to enjoy, as well as Mormon State Park. You can also enjoy a drink at the oldest bar in Nevada, which is located at the main intersection.
- One of the most famous historic figures from this area is Snowshoe Thompson. He delivered mail between Genoa and Placerville. In the winter he traveled back and forth using long, wooden skis. Tough dude!

Leg 25 - 27

- This leg enters Carson City, which is Nevada's capital city. It is the smallest capital city in the U.S. It is named after Kit Carson, who was John Fremont's scout. There are a number of museums here to enjoy,

including the Nevada State Railroad Museum that houses locomotives and other artifacts from the Virginia & Truckee (V&T) Railroad, the famous railroad line that ran from Reno to Carson City, then to Virginia City and the Carson Valley.

Leg 26

- About half way through this leg you will run along Carson Street, Carson City's main street through its charming downtown. The State Capitol Building will be on your right in about the middle of this leg. You also will pass by buildings that house the Nevada Legislature and the Nevada Supreme Court. On the left will be the old Mint Building where currency and coins were produced for decades. That building now houses the Nevada State Museum.

Leg 28

- The V&T Railroad passed near here on its way to Virginia City. The V&T Railroad was known as the Queen of the Short Lines. This part was constructed in 1870 to deliver silver ore to the mills in Carson City.

Leg 29 and 30 using Nevada State Route 342

- This leg passes through the Silver City. At the end of this leg it passes through the narrow gorge known as Devil's Gate. Think of how many adventurous souls passed through this point during the Comstock Lode days!
- This leg passes through the Gold Hill and crosses the tracks of the resurrected V&T Railroad. You may have to stop for the train!

Leg 30

- This leg reaches Virginia City, which was the center of the Comstock Lode. Silver was discovered here in 1859. Millions of dollars were made here, some by men like James Flood and James Fair who owned mines and then built famous mansions and hotels on San Francisco's Nob Hill. Mark Twain was a reporter for the Territorial Enterprise, Virginia City's newspaper at that time. Virginia City is the United States' largest historical monument. There is much to see here, including beautiful churches, the Silver Terrace Cemetery, Piper's Opera House, the Mackay Mansion and of course the Bucket of Blood Saloon.

Leg 33

- This leg descends the canyon on the original Old Toll Road, which was the route from the Truckee Meadows to Virginia City established in 1862. Thousands of passengers and millions in precious cargo were transported on stages, wagons, and 10 mule freighters. Lurking highwaymen frequented the road too, at places like Robbers Roost and Deadman's Point.
- Greg Lemond used the paved Geiger Grade highway as one of his training routes as a young cyclist before he went on to win the Tour de France. He holds the unofficial time record for climbing this road on a bike.

Leg 35

- This leg travels by ranches that have been operating in the Truckee Meadows for generations. Enjoy the wide open pastures with lots of horses and cows.
- Near the end of this leg as you descend the north side of Windy Hill, you will pass the old Huffaker School House that dates back to 1867. This historic building is part of Bartley Ranch Regional Park.

Leg 36

- This leg travels through old southwest Reno. You will pass by Virginia Lake, a City of Reno park which was a public works project built in the 1930's. You will pass some of Reno's most historic mansions: the

Redfield Mansion at 370 Mount Rose St.; the Mapes Mansion at 1501 S. Arlington Ave.; take Mansion at 250 S. Arlington Ave., which dates back to 1877; and the McCarran Mansion diagonally across from the Lake Mansion. You also will pass two of the “Spanish Quartet” elementary schools built in the early 1900’s. The Mount Rose School on Arlington Avenue continues to be a functioning elementary school today. The McKinley Park School on Riverside Drive now is owned and operated by the City of Reno.

Thank yous

Sponsors

This event could not happen without the generous support of our sponsors. Thank you to all of the terrific companies and organizations who are sponsors: ASICS, Dolan Auto Group, Reno Running Company, Revision Brewing, PK Electrical, The J Resprt, Bradley Drendel & Jeanney, LifeDrip, Garmin, Nathan, Granite Construction, Homewood Mountain Resort, Tahoe Forest Church, Delta Saloon, Interstate U-Stor, Village Shopping Center, ChiroFIT, Men Wielding Fire Fine Food and Barbecue and Buenos Grill.

Please thank all of these organizations by giving them your business.

Property Owners and Permitting Authorities

We also want to thank the MANY government agencies and property owners who cooperated with us in setting up the course and agreed to let us use their roadways and properties. They are: Nevada Department of Transportation, California Department of Transportation, Nevada Highway Patrol, California Highway Patrol, City of Reno, Jacobs Entertainment and the Sands Regency, Washoe County, Randy Witt and Interstate U-Stor, Verdi Elementary School (Washoe County School District), Sierra County, United States Forest Service, Humboldt-Toiyabe National Forest, Tahoe National Forest, Lake Tahoe Basin Management Group, Tahoe Forest Church, Town of Truckee, Tahoe-Truckee campus of Sierra College, Placer County, Tahoe City Public Utility District, Homewood Mountain Resort, Tahoe Maritime Museum, El Dorado County, City of South Lake Tahoe, Tahoe Keys Professional Center, Lake Tahoe Community College, The Village Center at South Lake Tahoe, Douglas County, Town of Genoa, Nevada State Parks, Jacks Valley Volunteer Fire Department, Walmart on US HWY 395 and Topsy Lane in Carson City, Carson City, Carson City Parks and Recreation, Glenbrook Company, Southgate Shopping Center, JC Penney, Walmart on College Way in Carson City, North Carson Crossing Shopping Center, Lyon County, Larry LaMonica & Son, Storey County, Delta Saloon, Bucket of Blood Saloon, Highland Ranches Property Owners Association, Parkway Athletic Club, and Huffaker Elementary School (Washoe County School District). Please thank them by (1) leaving their roadways and properties as you found them, (2) picking up your garbage, (3) peeing in the portable toilets, not their yards, and (4) being quiet when appropriate.

Volunteers

A 178 mile relay run event with a start and finish area and 35 exchange points could not occur without many people giving their time to help stage this event. Many have volunteered every year of the event. Please thank every volunteer you see, especially the ones working what we call the Vampire Shifts during the dark night-time hours.

Things To Do When You Get Home

Take a shower. Get a good night's sleep. Wash those stinky clothes. Plan to donate all of those extra bagels and power bars to a worthy charity.

Then do the following: contact your friends and tell them how much fun you had running in this year's Reno-Tahoe Odyssey Relay Run Adventure or Capital Odyssey Relay or Comstock Odyssey Relay.

Send us your Photos and Videos and Testimonials

Please take lots of photos and videos during the event. Be sure to tag us on the Reno-Tahoe Odyssey Facebook and Race178 IG pages.

#RTO2023 #renotahoeodyssey

We also invite you to rate us and email us with your testimonials.

Survey

We will send you a survey with the post-race communication.

As for next year's RTO, Capital and Comstock Odyssey Relays ...

The 18th Running of the Reno-Tahoe Odyssey Relay Run Adventure will occur on the Friday-Saturday following Memorial Day 2024. Announcement about a firm date will follow shortly. We intend to open registration on July 1, 2023. So be ready to sign up earlier than later to make sure you have a spot in the field. The first 25 registered teams will score something extra. We're still deciding on what that will be for next year.

Thank you again for your support of the RTO, Capital and Comstock Odyssey Relays!
